1

Before you start

Lantern helps each team member prepare a **position focus** — a short, dated plan of objectives and SMART goals — and agree it with their career lead.

How to use this manual

Each feature has one slide: what it does, how to try it, and what to check. Work through the chapters in order the first time; later, use the edition number to see what changed.

Try it

Steps to reach the screen yourself on staging. Numbers such as 1 match the highlighted controls in the screenshots.

Check

Behavior to confirm. Each check is a pass or fail; report a failure as a GitHub issue.

Screenshots

Generated automatically from the application source on a fixed desktop (1440 × 900) and phone (390 × 844) profile.

Synthetic data

Every name, email and focus in this manual is fictional. Use only test data on staging.

Two roles

Members write their own focuses. **Career leads** review, confirm and manage their department. You need an account in each role.

Editions

The manual is regenerated whenever the product changes. The latest edition is attached to the newest GitHub release.

The people in the screenshots

The screenshots follow five fictional people in a local demonstration. QA uses their own Jesus Film accounts in the staging QA department.

Aroha Ngata

Member · Engineering

Has a confirmed focus for the second half of 2026 and is drafting one for 2027.

Sam Patel

Member · Engineering

Has sent two versions of a focus to the career lead for review.

Morgan Lee

Career lead · Engineering

Reviews and confirms Engineering's focuses and manages the department.

Riley Chen

Career lead · Design

Leads a different department and must not see Engineering's focuses.

Casey Brown

No department yet

Has signed in but is waiting for a career lead to add them.

2

Signing in and your account

Lantern uses Jesus Film sign-in. An approved account then needs a career lead to add it to a department.

Signed out

Sign in with Jesus Film

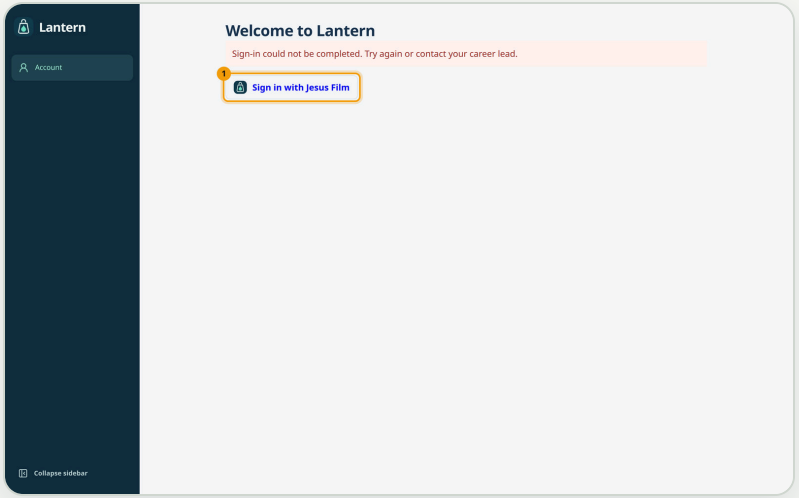

Signed-out visitors go straight to Jesus Film Auth with a fresh login prompt. Only approved accounts can sign in.

TRY IT

1. Open the staging address in a private window.
2. Lantern sends you straight to Jesus Film Auth.
3. Sign in to your test Jesus Film account.

CHECK

- [ ] You return to Lantern signed in, with your name in the sidebar.
- [ ] An account that is not approved returns to the retry screen with “Sign-in could not be completed”.
- [ ] Cancelling at Jesus Film Auth also returns with that message.
- [ ] Reloading keeps you signed in.

Retry after failed or cancelled sign-in · Desktop · 1440 × 900

Screenshot to be supplied

Open staging signed out and capture Jesus Film Auth’s sign-in screen in a 1440 × 900 window.

`docs/manual/supplied/jesusfilm-sign-in.png`

Jesus Film Auth sign-in · supplied by a person

Anyone

Waiting to join a department

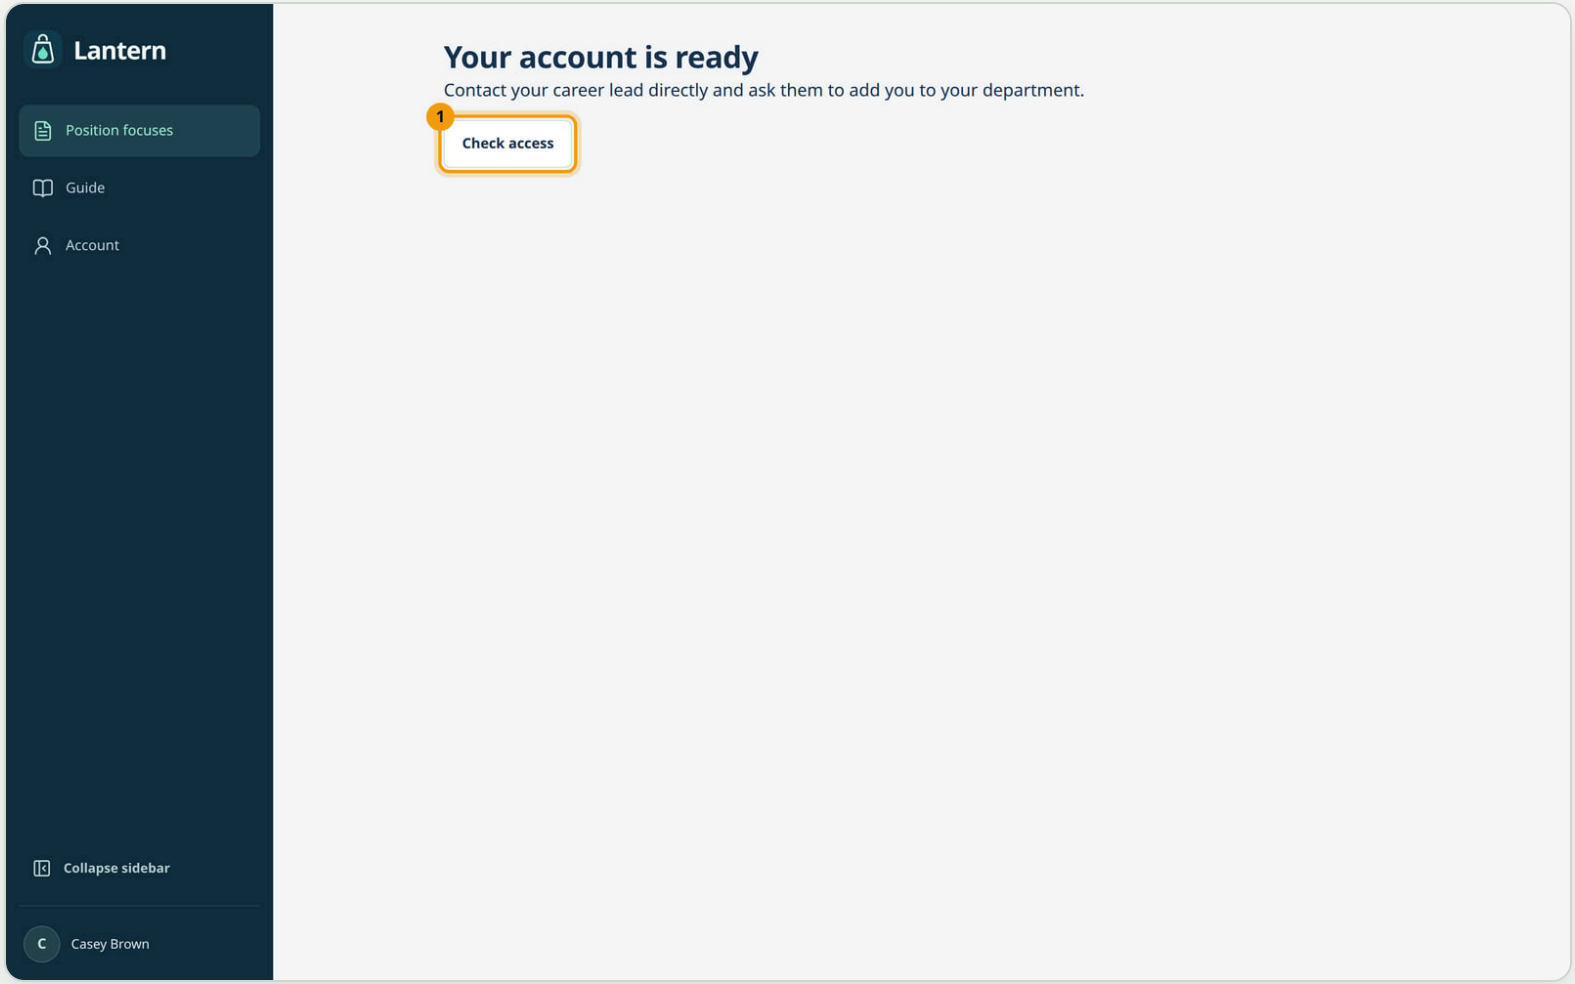

A newly signed-in account has no department, so it cannot write focuses until a career lead adds it.

TRY IT

1. Sign in with an approved account that has no department.
2. Ask the career lead to add you (see Department → Add user).
3. Choose 1 **Check access**.

CHECK

- [ ] The screen explains that the career lead must add you.
- [ ] After you are added, Check access opens Position focuses without signing in again.
- [ ] No department data is visible before you are added.

Signed in, no department · Desktop · 1440 × 900

Member Career lead

Sidebar navigation

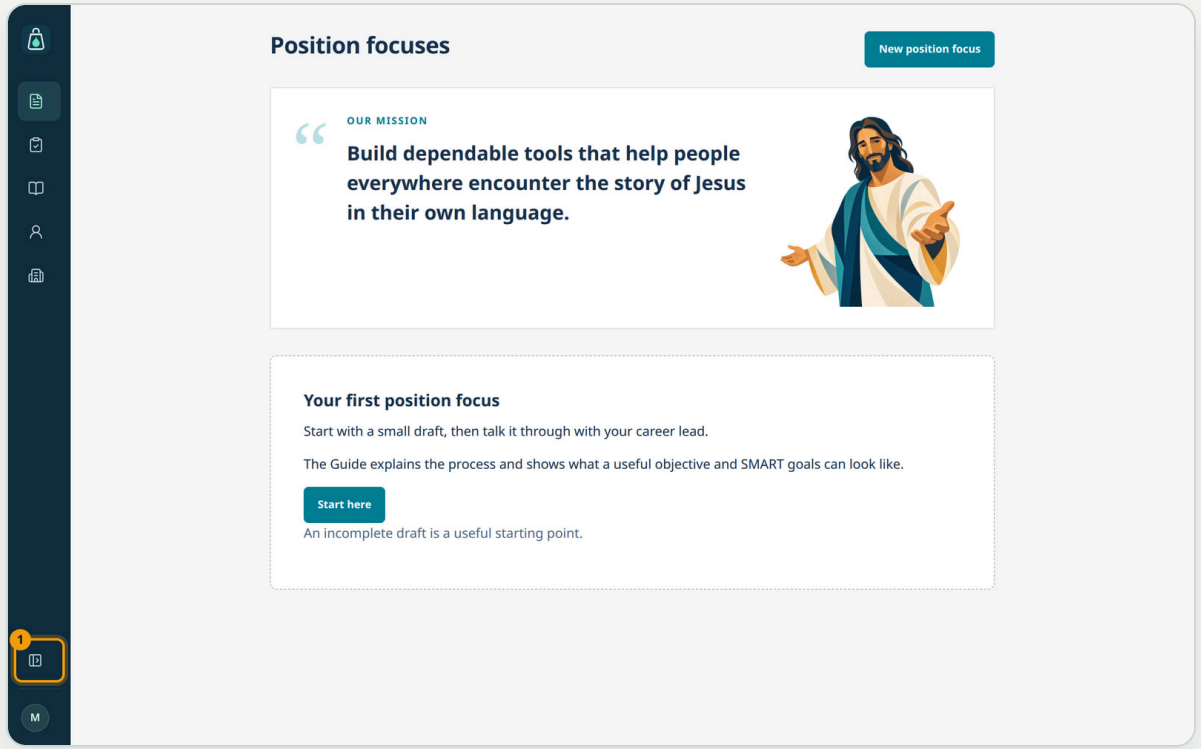

The Lantern mark and icons identify the main destinations. Navigation flag: sidebar-collapse; hidden in production until released.

TRY IT

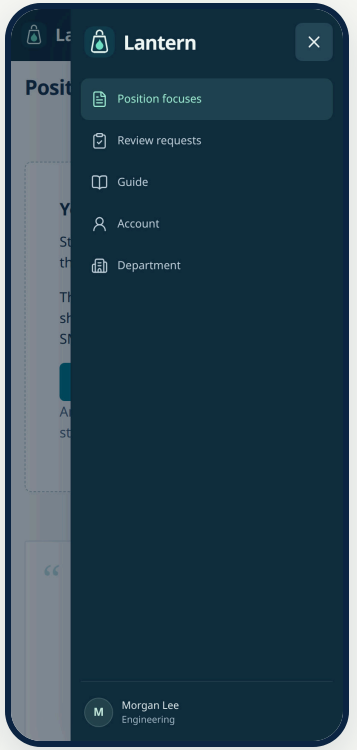

1. Choose **Collapse sidebar** above your profile at the bottom.
2. Use an icon to open Guide or Account; hover for its name.
3. Reload, then choose 1 **Expand sidebar**.

CHECK

- [ ] Desktop icons stay fixed while labels fade and the rail narrows. Phones use a top-right menu button.
- [ ] The choice survives navigation and reload in this browser.
- [ ] The phone menu slides in; select a destination or close it with × or Escape.
- [ ] Members see only their permitted destinations; career leads also see reviews and Department.

Member Career lead

Your account

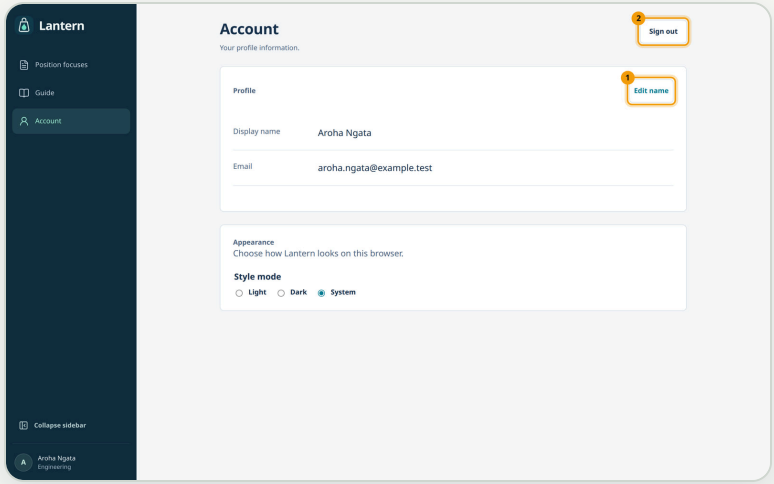

Account shows your profile. You can change the display name others see, and sign out.

TRY IT

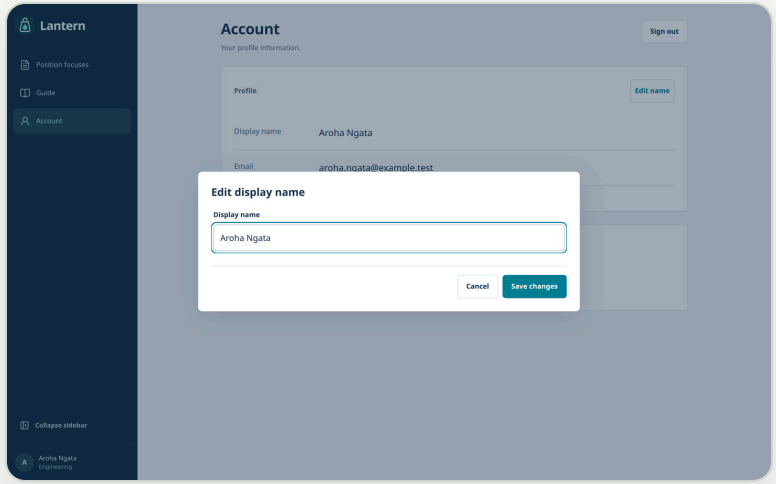

1. Open **Account** in the sidebar.
2. Choose 1 **Edit name**, change it and save.
3. Choose 2 **Sign out**.

CHECK

- [ ] The new name appears in the sidebar and survives a reload.
- [ ] Your career lead sees the new name in Department → People.
- [ ] After signing out, Back does not show your data.

Profile · Desktop · 1440 × 900

Editing the display name · Desktop · 1440 × 900

Member Career lead

Appearance

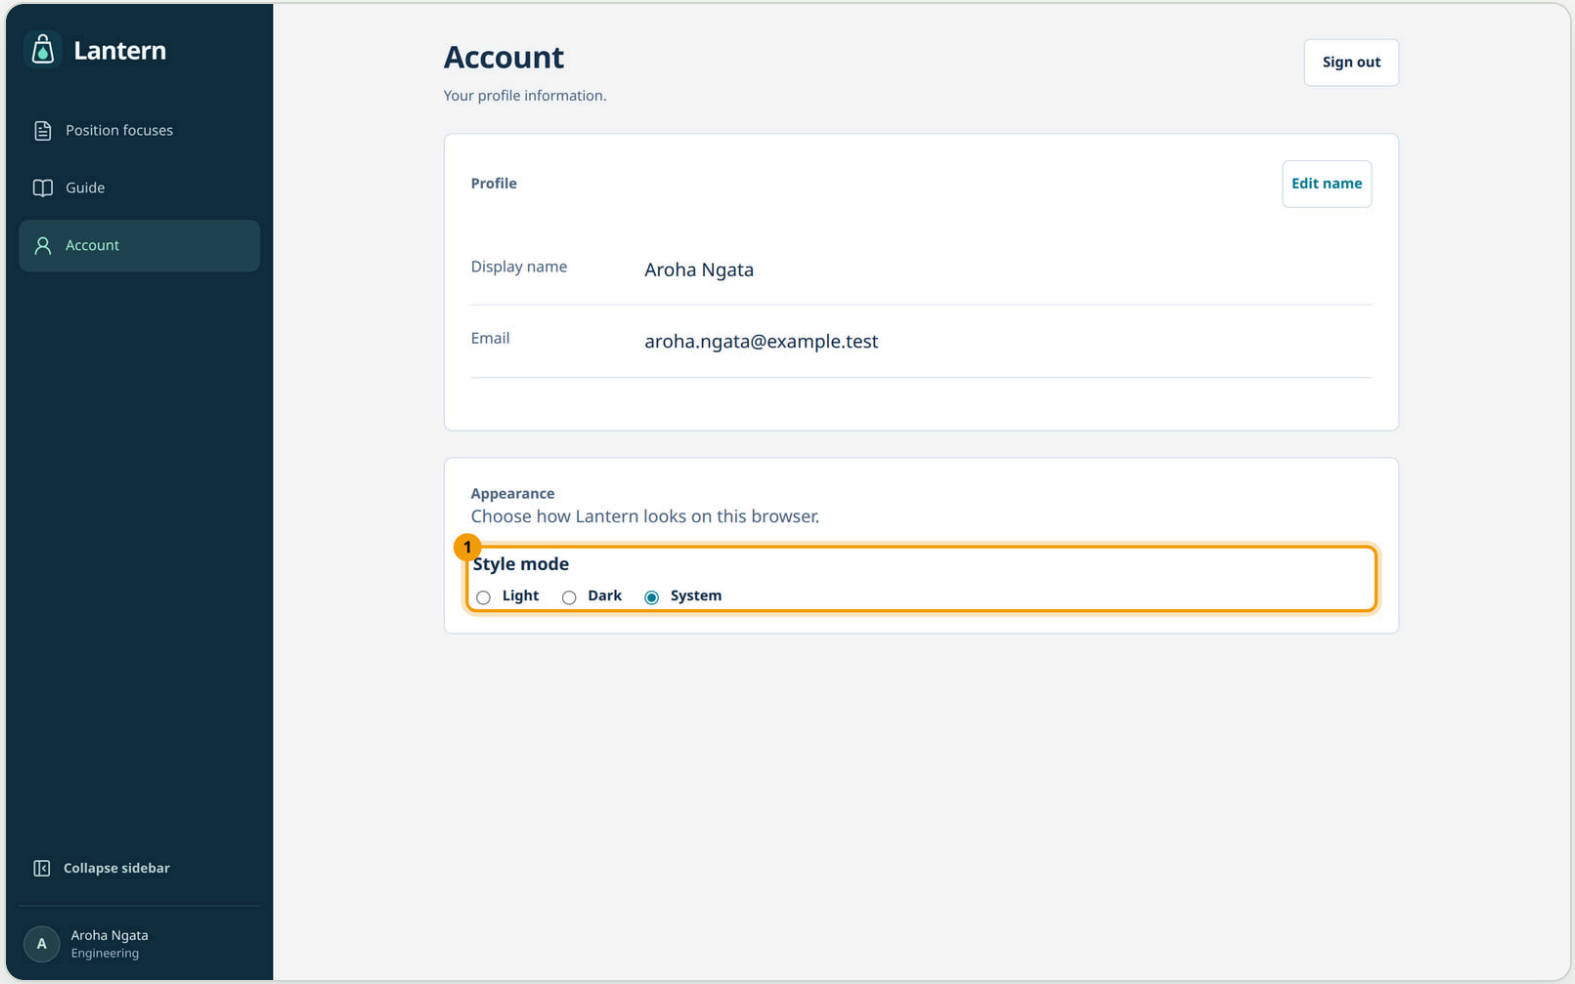

Choose Light, Dark or System in Account. System follows your device's color setting.

TRY IT

1. Open **Account**.
2. Choose 1 **Light**, **Dark** or **System** under Appearance.
3. Reload the page.

CHECK

- [ ] The chosen mode is remembered in this browser.
- [ ] System follows changes to the device setting.
- [ ] Clearing browser storage resets the choice to System.

Appearance settings · Desktop · 1440 × 900

3

Writing a position focus

Members create dated focuses, add objectives and SMART goals, and link each objective to the department's strategic initiatives.

Member

Your position focuses

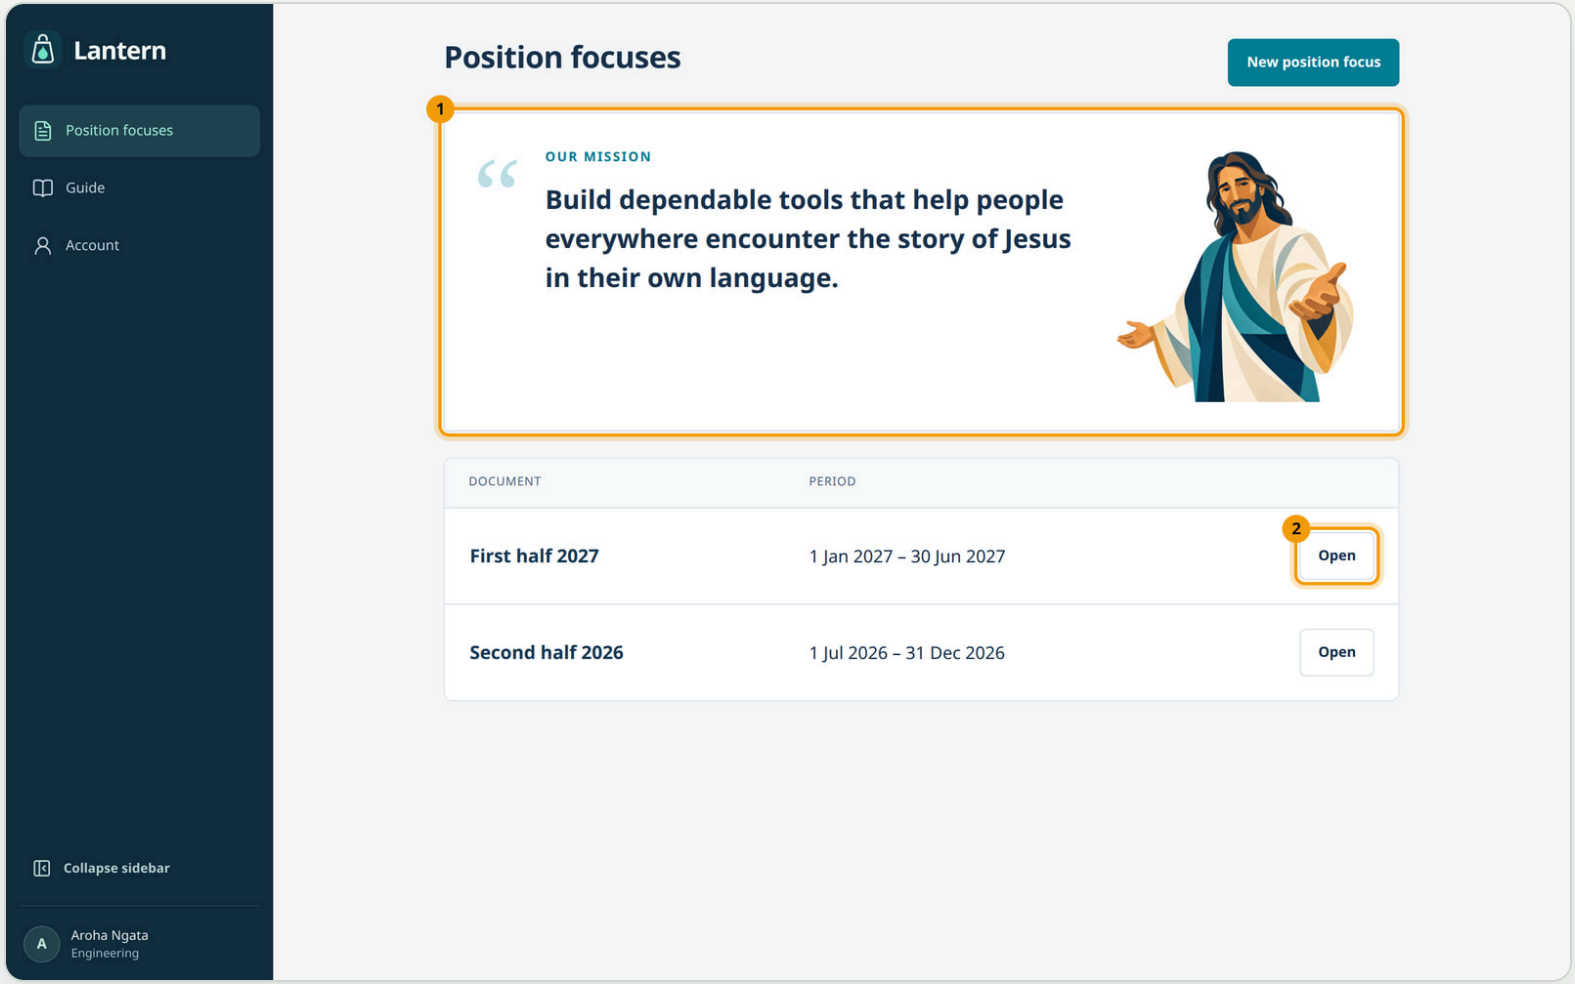

The home screen shows the department's mission and every focus you have written, newest period first.

TRY IT

1. Sign in as a member.
2. Read the 1 mission card.
3. Choose 2 **Open** on a focus.

CHECK

- [ ] The mission matches Department → Mission & initiatives.
- [ ] Focuses are listed by period, newest first.
- [ ] A member with no focuses sees a first-focus prompt linking to the Guide.

Home · Desktop · 1440 × 900

Member

Start a new focus

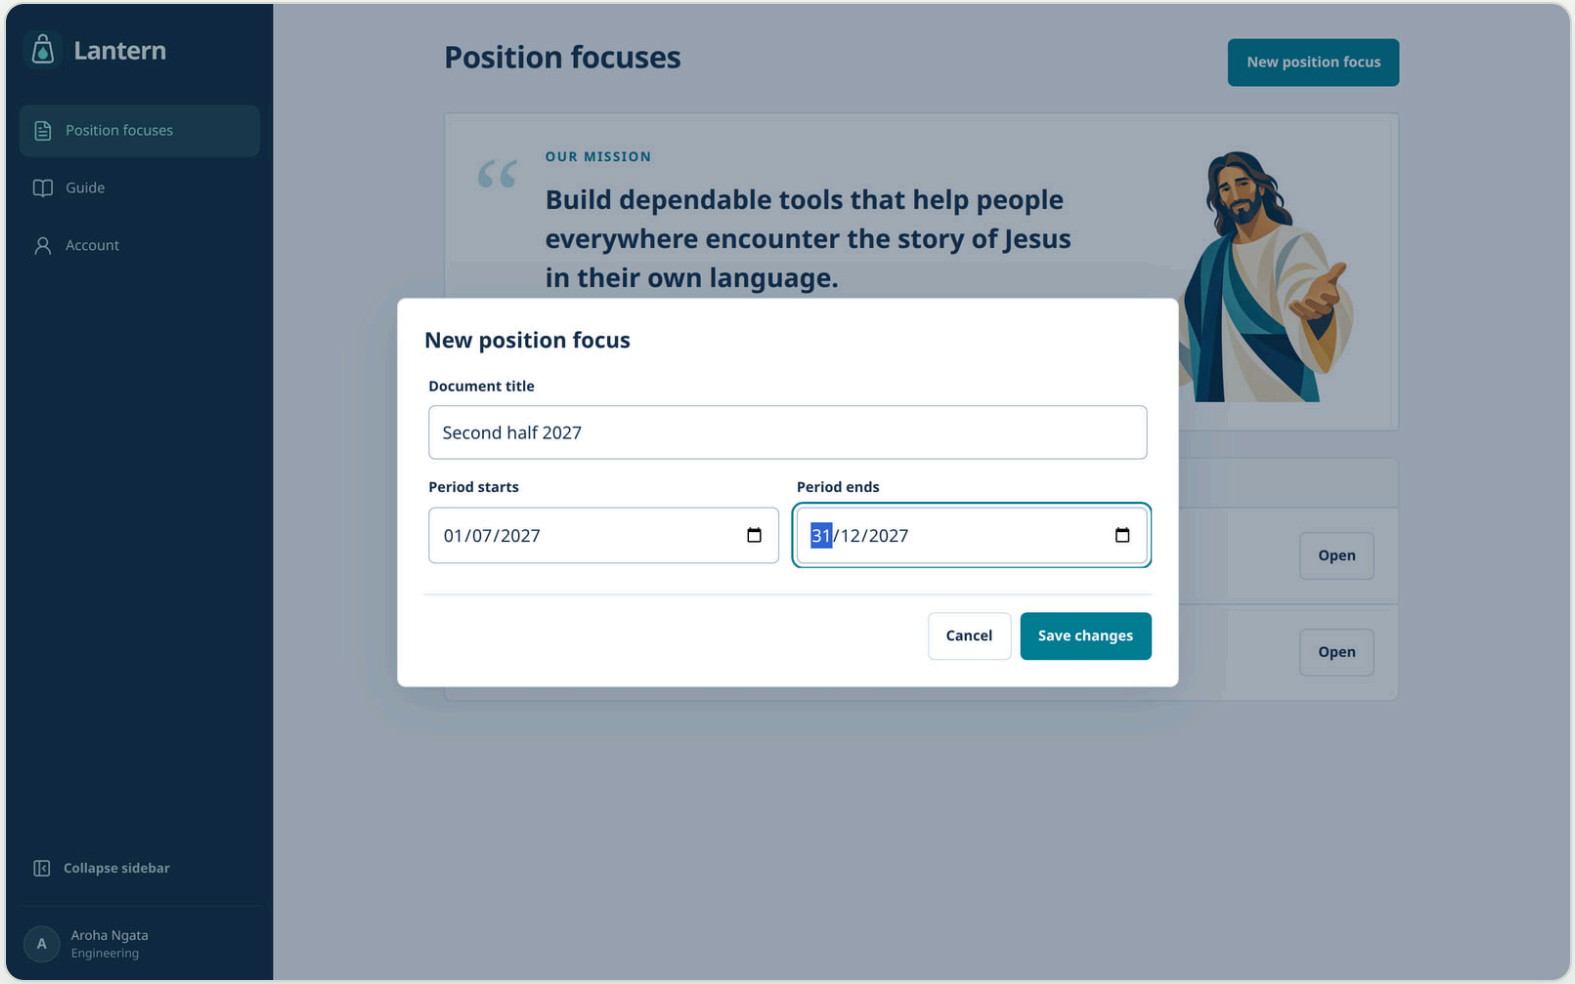

A focus needs a title and a period. Everything else can be added later; empty and partial drafts are valid.

TRY IT

1. Choose **New position focus**.
2. Enter a title and the start and end dates.
3. Choose **Save changes**.

CHECK

- [ ] The new focus opens as a Draft and appears in the list.
- [ ] An end date before the start date cannot be saved.
- [ ] Cancel closes the dialog without creating a focus.

New focus dialog · Desktop · 1440 × 900

Member

Reading a focus

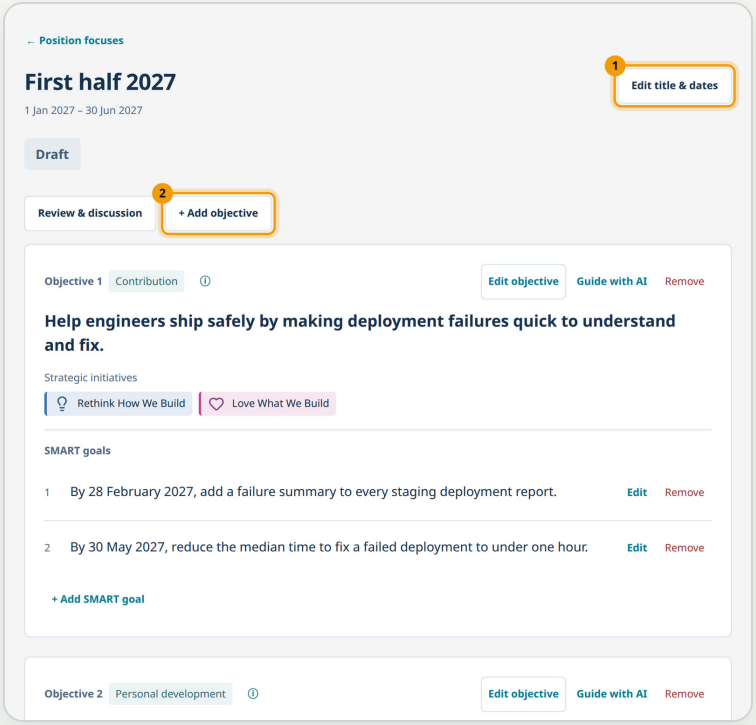

A focus opens in a compact reading view. Each objective shows its type, initiatives and numbered SMART goals.

TRY IT

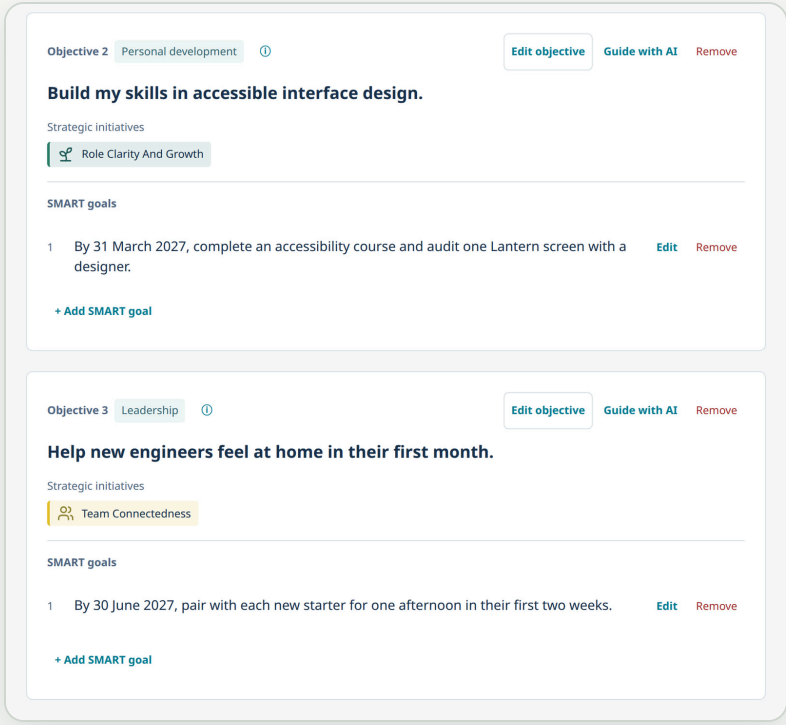

1. Open a draft focus.
2. Use **1** **Edit title & dates** to change the period.
3. Use **2** **+ Add objective**, or the actions on each objective and goal.

CHECK

- [ ] Contribution, Personal development and Leadership labels match what was saved.
- [ ] Initiative badges show the configured icon and color.
- [ ] Remove asks before deleting an objective or goal.

Draft focus · Desktop · 1440 × 900 · scroll 1 of 2

Desktop · 1440 × 900 · scroll 2 of 2

Member

Add an objective

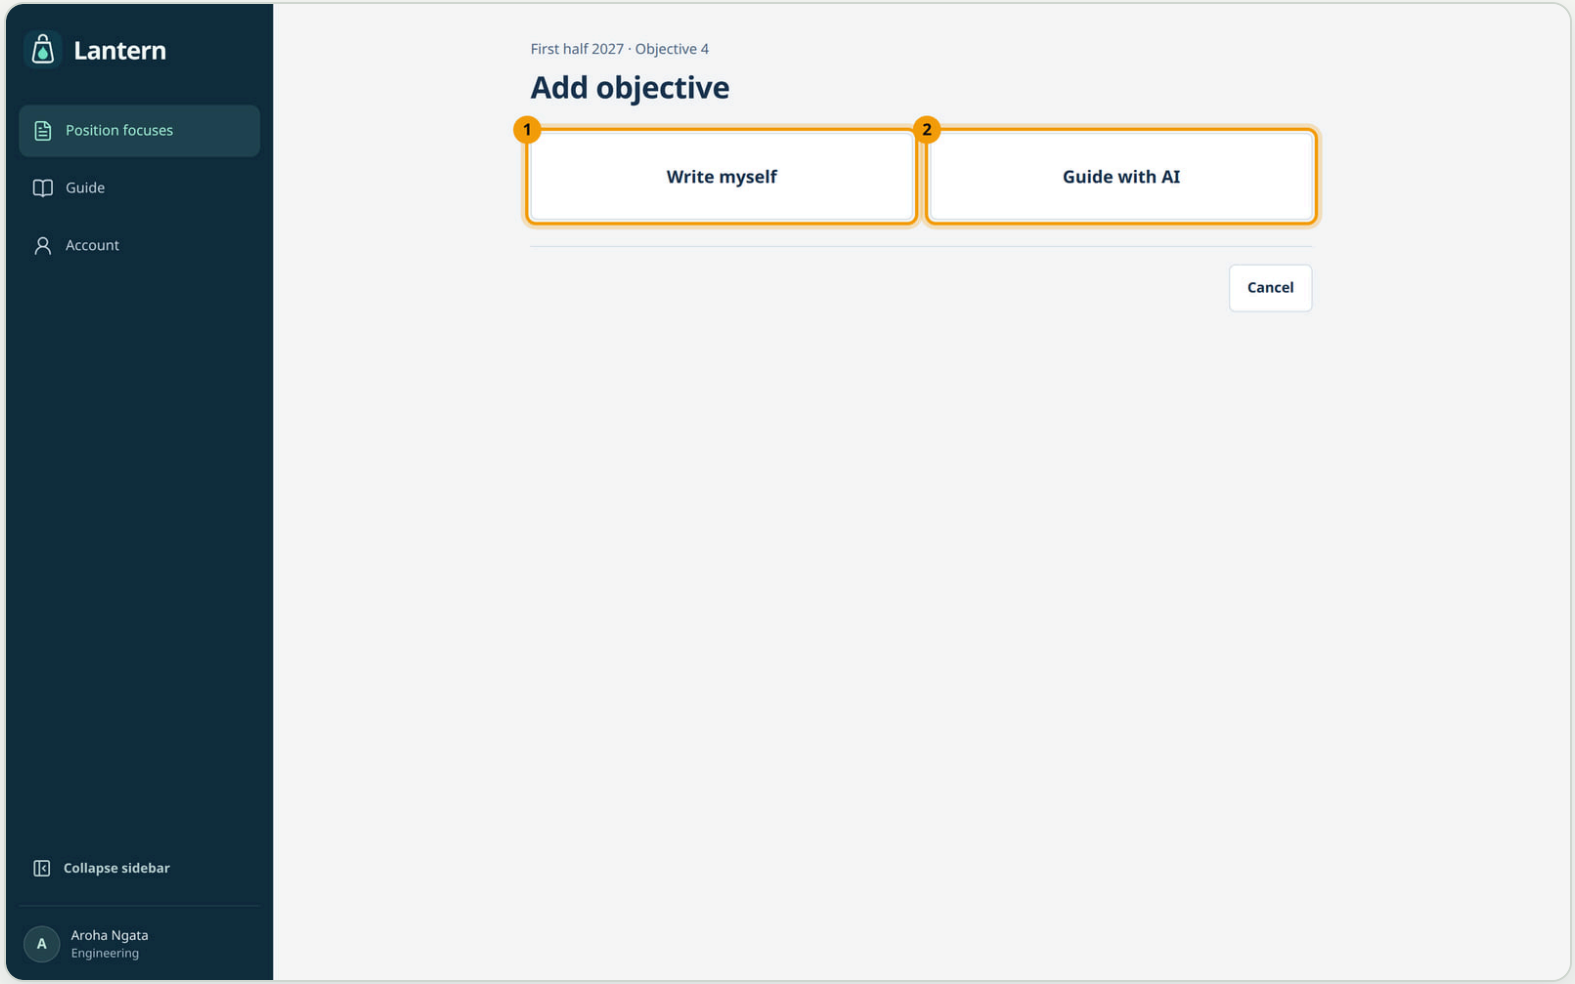

Each new objective starts with a choice: write it yourself, or let AI guide you through it. You can switch methods without losing text.

TRY IT

1. Open a draft and choose **+ Add objective**.
2. Choose 1 **Write myself** or 2 **Guide with AI**.

CHECK

- [ ] Both methods edit the same objective; switching keeps your text.
- [ ] Cancel returns to the focus without changes.
- [ ] Guide with AI is offered only when the AI service is available.

Choosing a method · Desktop · 1440 × 900

Member

Write an objective yourself

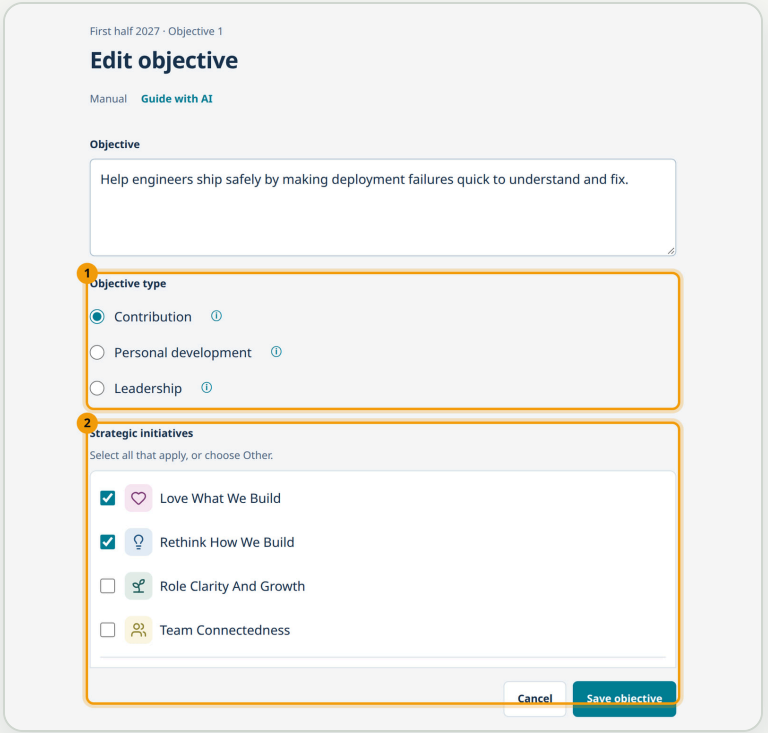

The objective page holds the objective, its 1 type, its 2 strategic initiatives and its SMART goals. **Save objective** saves them together.

TRY IT

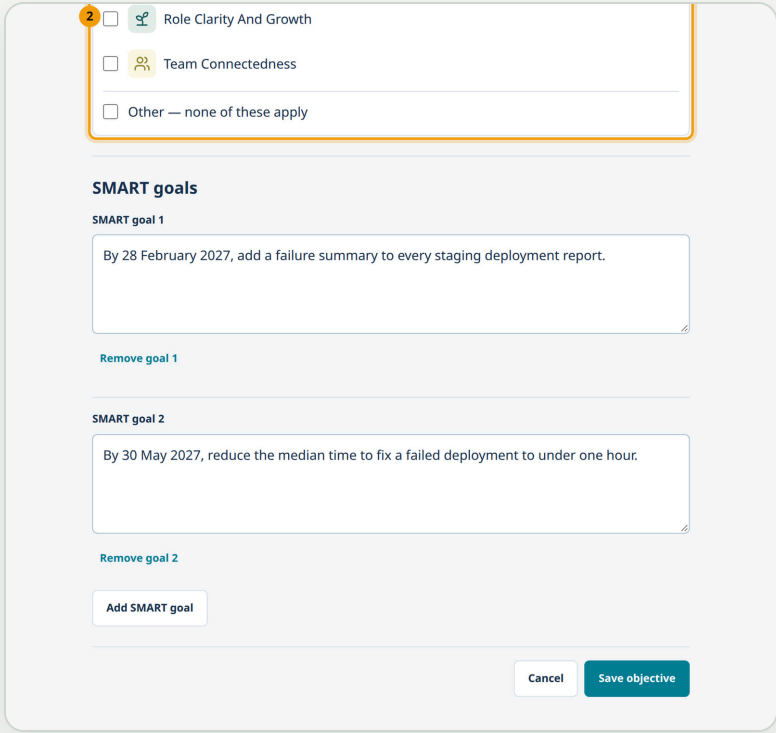

1. Choose **Edit objective** on an objective.
2. Change the text, type and initiatives.
3. Edit, add or remove SMART goals, then **Save objective**.

CHECK

- [ ] Saving without an initiative or Other shows “Select an initiative or Other”.
- [ ] Choosing Other clears the named initiatives.
- [ ] Other objectives in the focus are unchanged after saving.
- [ ] Leaving with unsaved changes asks for confirmation.

Edit objective · Desktop · 1440 × 900 · scroll 1 of 2

Desktop · 1440 × 900 · scroll 2 of 2

Member

Quick SMART goal edits

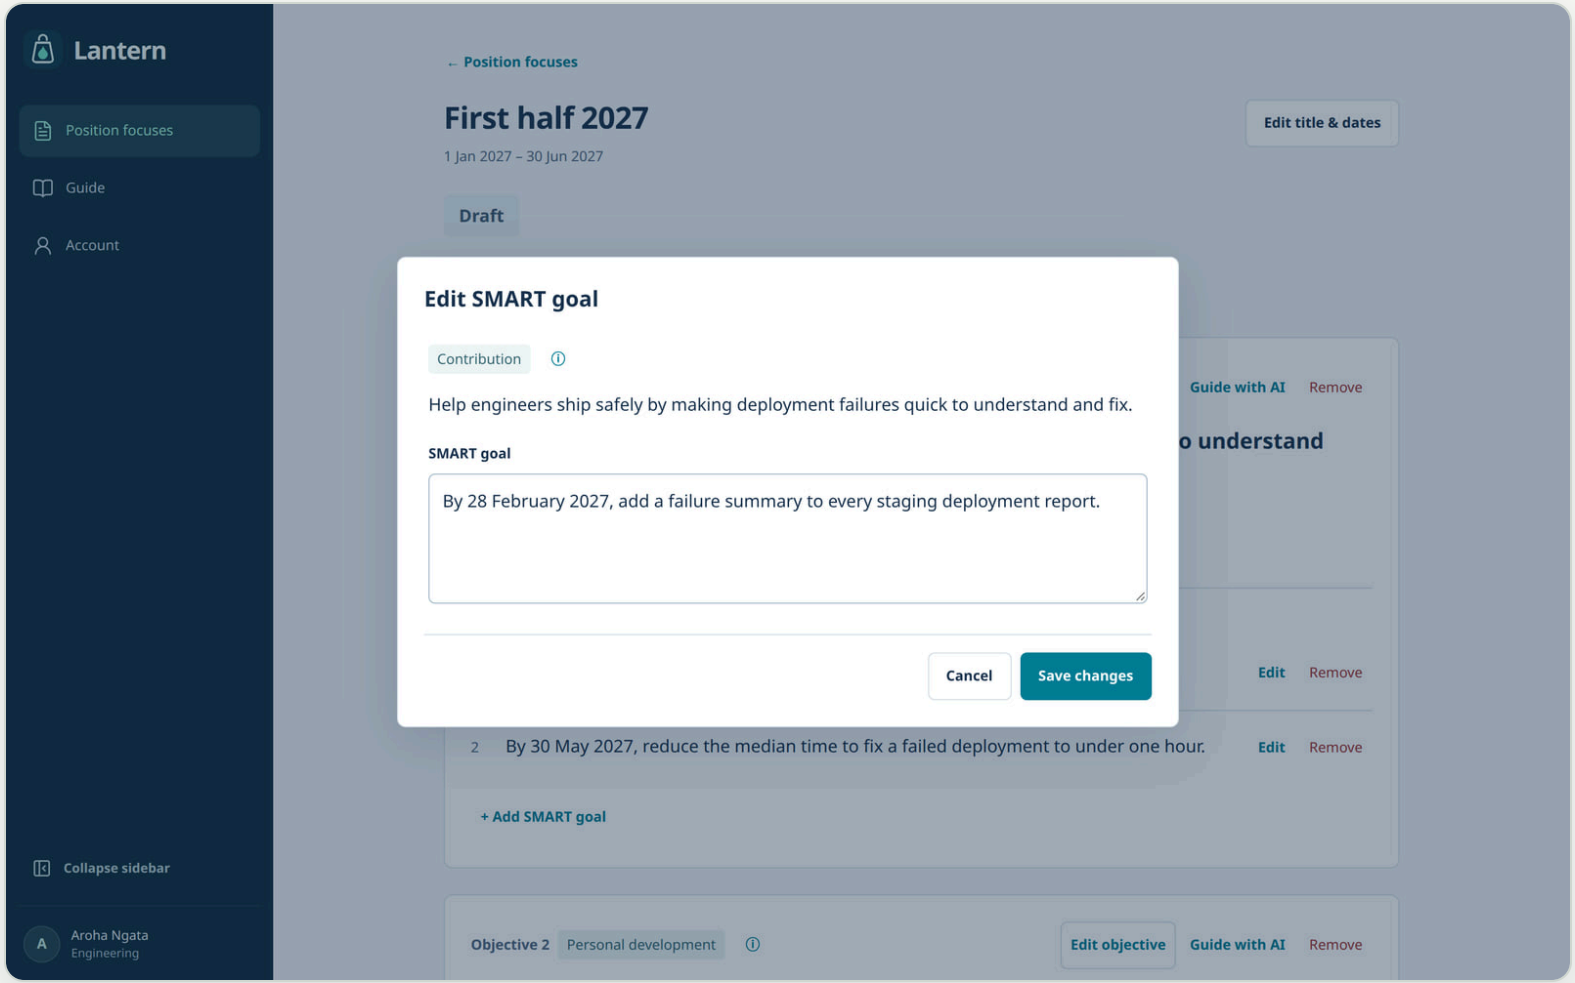

Each goal has its own **Edit** and **Remove** actions for small changes, shown with the objective for context.

TRY IT

1. Choose **Edit** beside a SMART goal.
2. Change the wording and choose **Save changes**.

CHECK

- [ ] Only that goal changes; the objective and other goals stay the same.
- [ ] A failed save keeps your text in the dialog.
- [ ] Cancel discards the change.

Edit SMART goal · Desktop · 1440 × 900

Member

Guide with AI: from your work to an objective

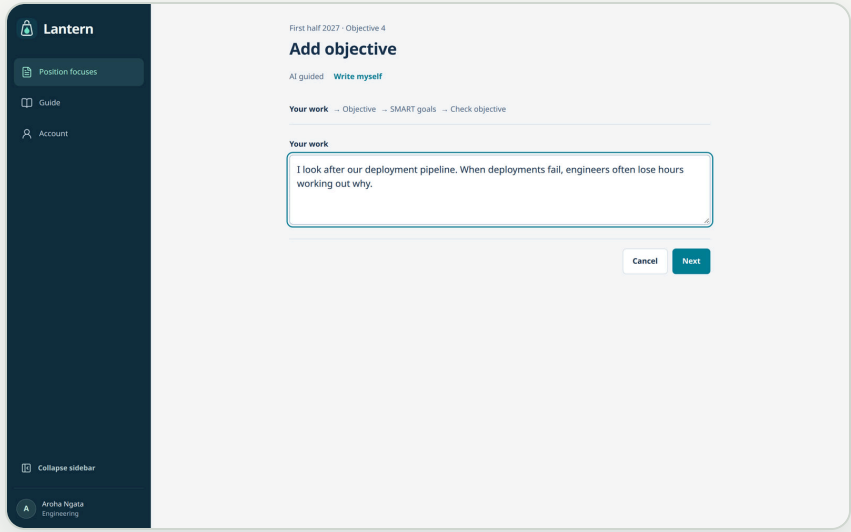

Guided writing moves through **Your work → Objective → SMART goals → Check objective**. The member describes their work; the AI proposes wording and initiatives to accept or change.

TRY IT

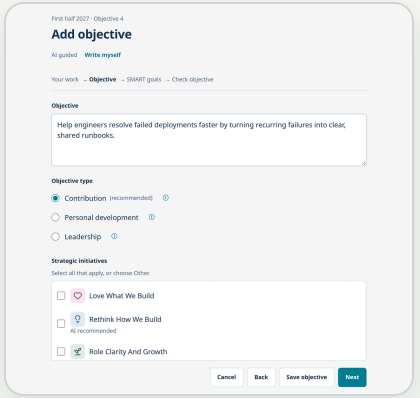

1. Choose **+ Add objective**, then **Guide with AI**.
2. Describe your work in a sentence or two.
3. Choose **Next** and review the suggestion.

CHECK

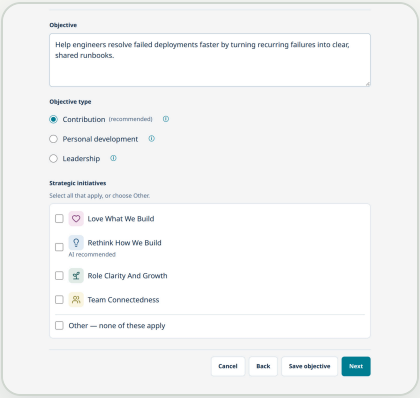

- [ ] AI recommendations are labelled and never selected for you.
- [ ] Back returns to earlier stages with your text intact.
- [ ] A slow reply shows a loading overlay you can cancel.

Guide with AI: goals and final check

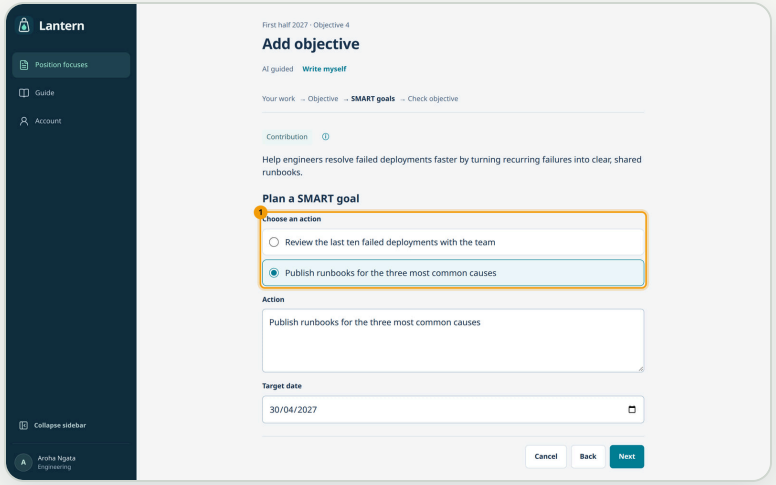

For each goal the AI suggests 1 actions and a target date, then drafts the goal wording to check. Nothing is saved until **Save objective**.

TRY IT

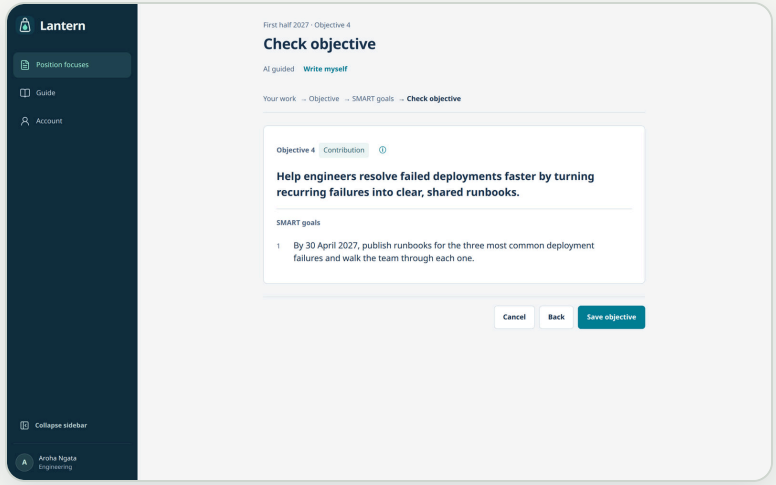

1. At SMART goals, choose **Add SMART goal**.
2. Pick or write an action and date, then **Next**.
3. Edit the goal, **Add to objective**, then **Next** to the check.

CHECK

- [ ] Saved wording matches what you saw, including your edits.
- [ ] If the AI cannot reply, a message explains you can continue manually.
- [ ] Your text is kept when you switch to Write myself.

4

Review and agreement

A member sends a saved version for review. The member and career lead discuss it in notes, and the career lead confirms and locks the agreed focus.

Member

Ask your career lead for a review

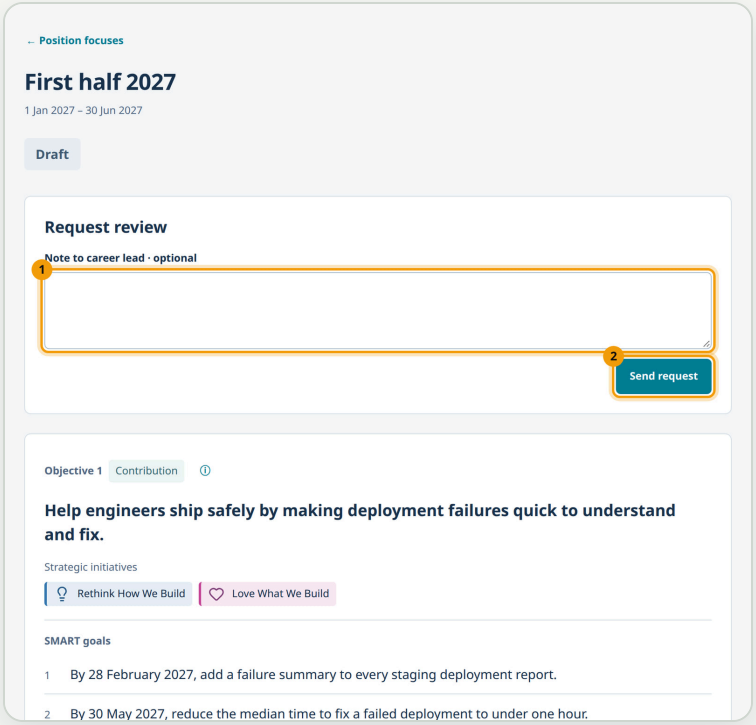

Review & discussion shows the focus read-only, with a request form and the notes. Saving alone never sends a review request.

TRY IT

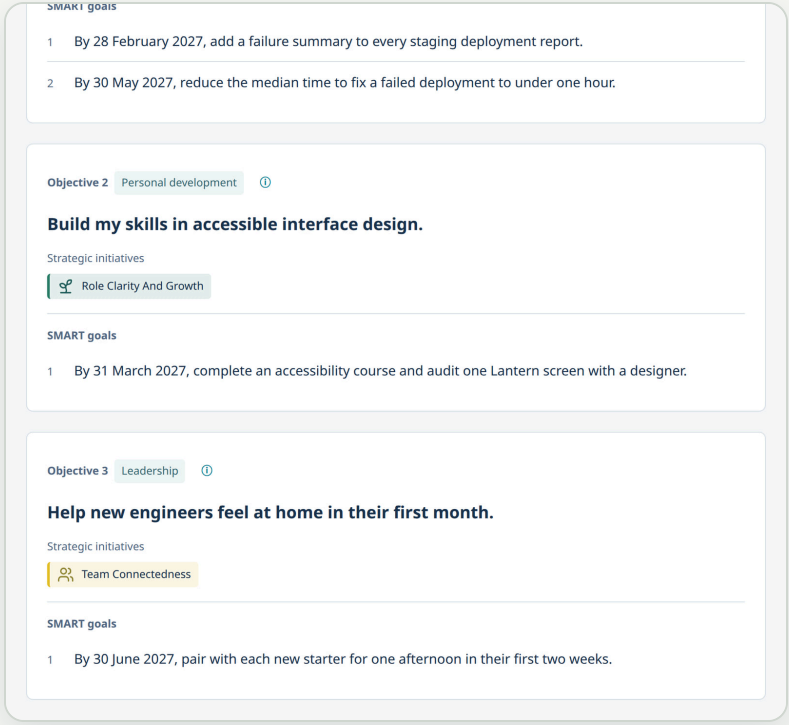

1. Open a draft with a Contribution objective and at least one goal.
2. Choose **Review & discussion**.
3. Add an optional 1 note and choose 2 **Send request**.

CHECK

- [ ] The career lead sees the request under Review requests.
- [ ] A focus without a Contribution objective and goal cannot be sent.
- [ ] After further edits you can send the newer version.

Review & discussion · Desktop · 1440 × 900 · scroll 1 of 2

Desktop · 1440 × 900 · scroll 2 of 2

Career lead

Review requests

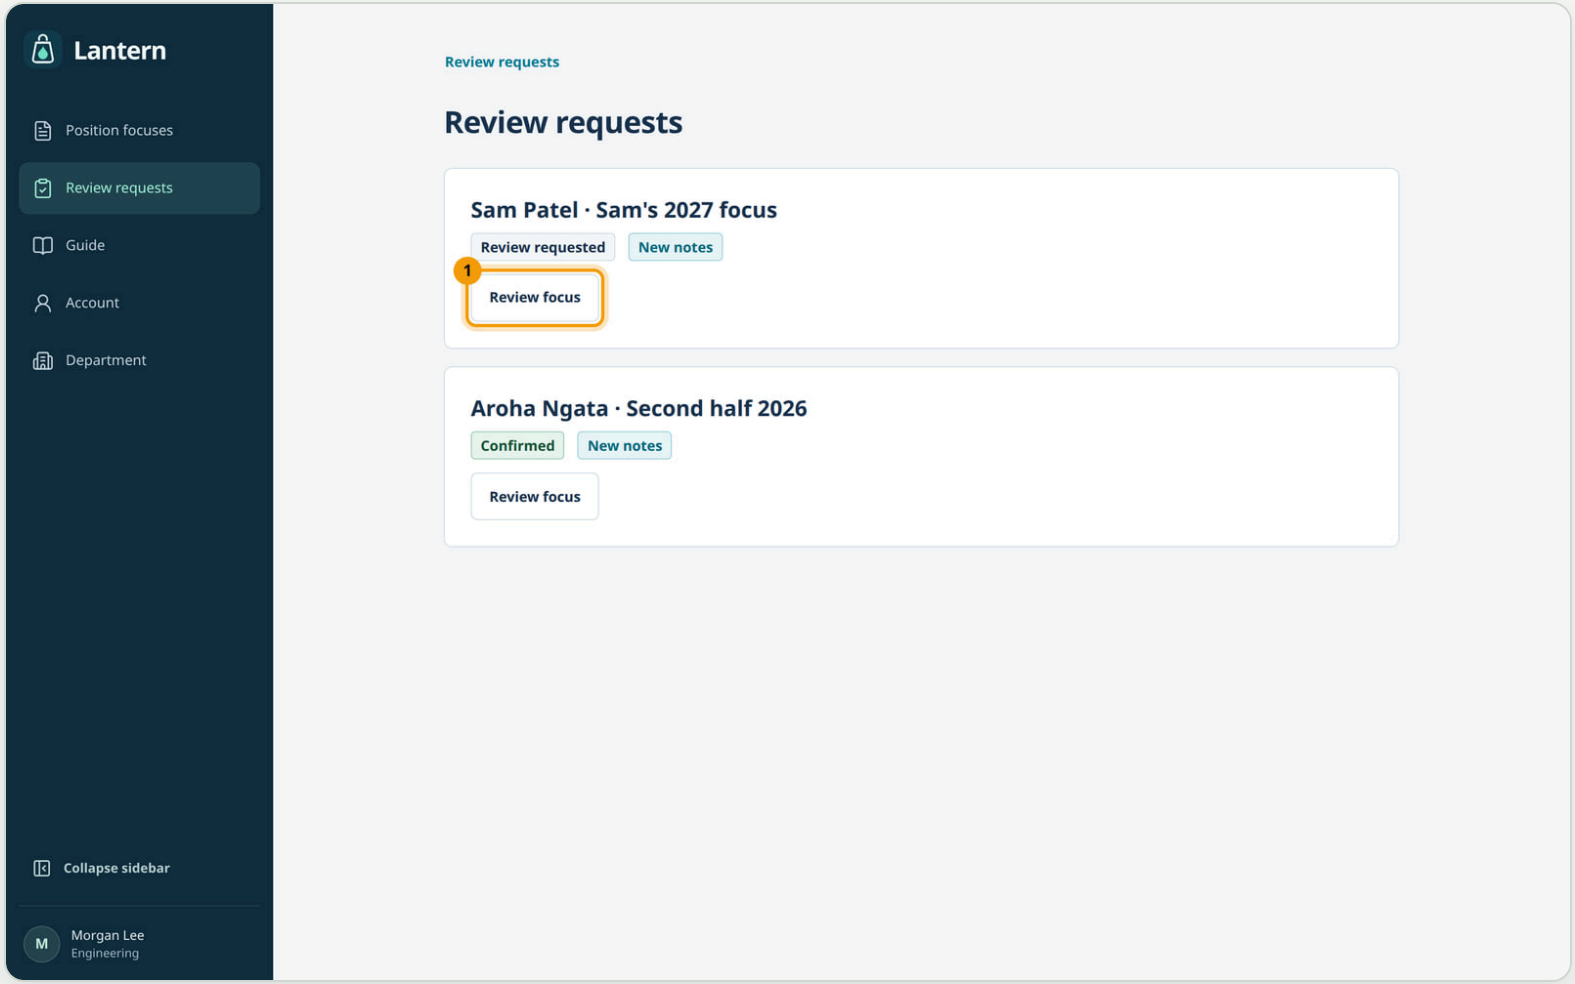

Career leads see every review request in their department, with its status and whether there are new notes.

TRY IT

1. Sign in as the career lead.
2. Open **Review requests**.
3. Choose 1 **Review focus**.

CHECK

- [ ] Only your department's members appear.
- [ ] “New notes” clears once you have read them.
- [ ] Confirmed focuses show as Confirmed.

Review requests · Desktop · 1440 × 900

Career lead · Member

Review what changed and discuss

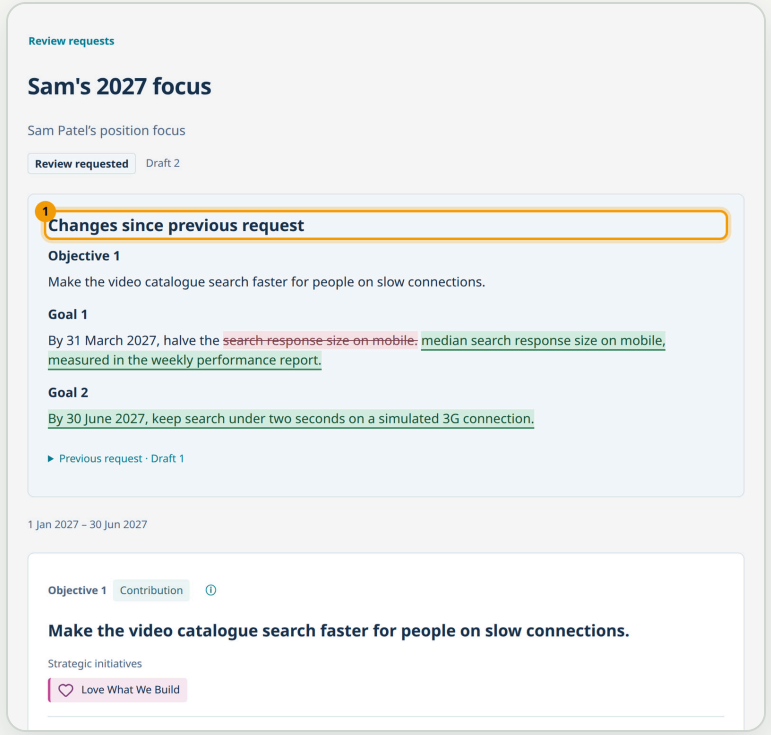

The review shows the submitted snapshot, 1 what changed since the previous request, and the notes. Both people can add notes and delete their own.

TRY IT

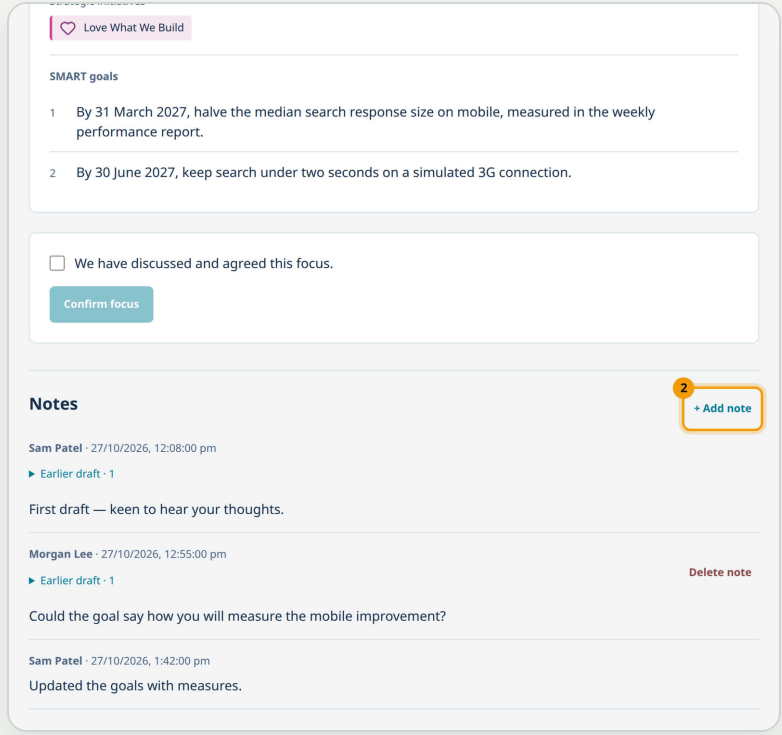

1. Open a request that has been sent twice.
2. Read the highlighted changes.
3. Choose 2 **+ Add note**, write a note and send it.

CHECK

- [ ] Insertions and deletions match the two versions.
- [ ] Notes cannot be edited, only deleted by their author.
- [ ] The member sees the lead's note under Review & discussion.

Reviewing Sam's request · Desktop · 1440 × 900 · scroll 1 of 2

Desktop · 1440 × 900 · scroll 2 of 2

Career lead

Confirm and lock a focus

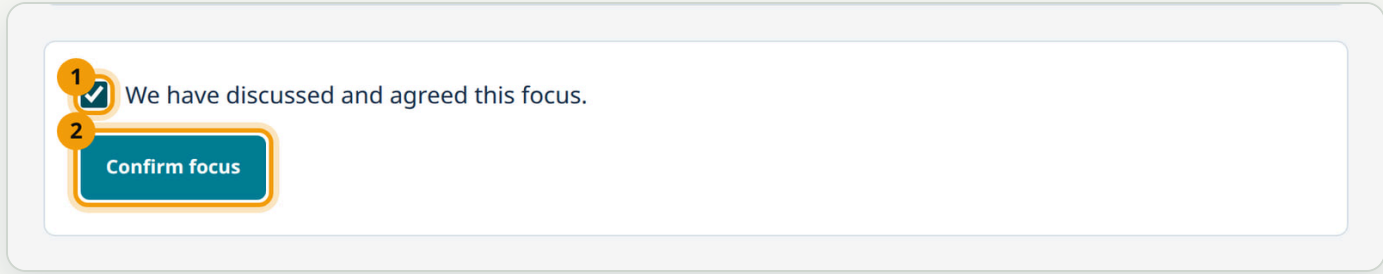

After the conversation, the career lead ticks 1 the agreement box and 2 confirms. The focus and its notes become read-only for both people.

TRY IT

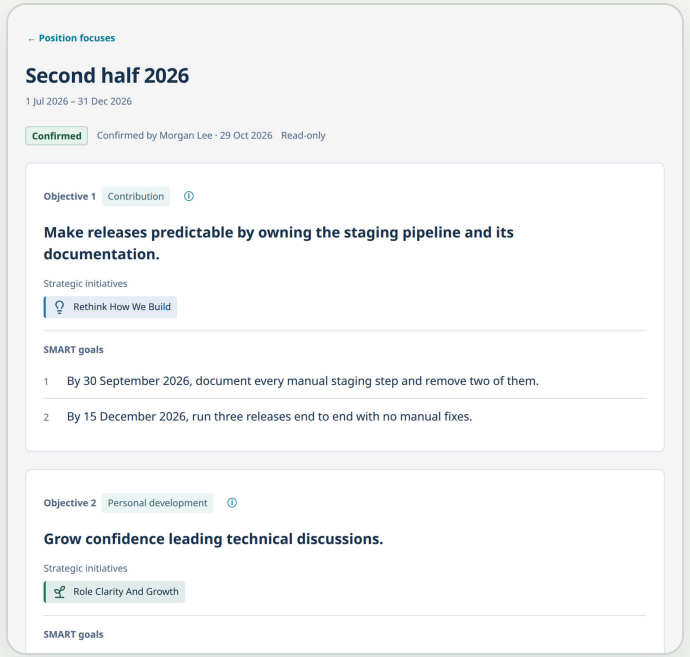

1. In a review, tick **We have discussed and agreed this focus.**
2. Choose **Confirm focus**.
3. Open the focus as the member.

CHECK

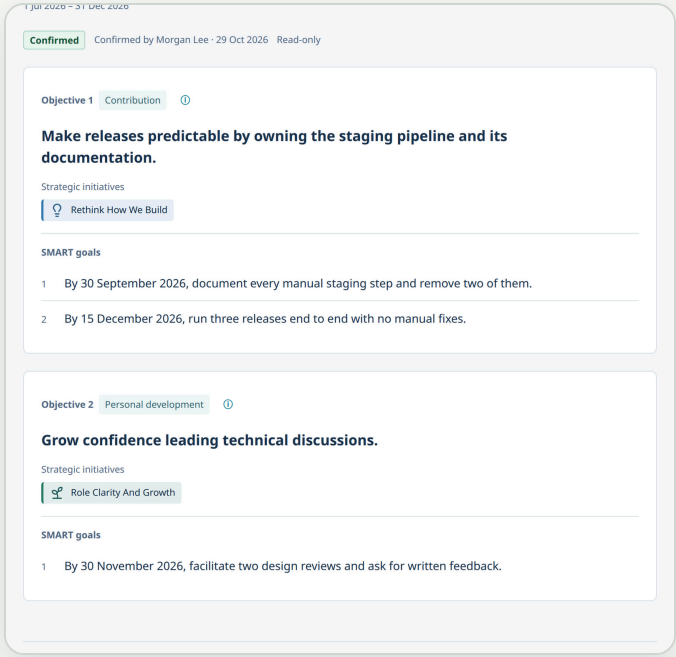

- [ ] The member sees Confirmed by the lead, with the date.
- [ ] No edit, add or remove actions remain for either person.
- [ ] Confirming an older version than the latest request is refused.

Desktop · 1440 × 900 · scroll 2 of 2

Career lead

Confirm from a position focus

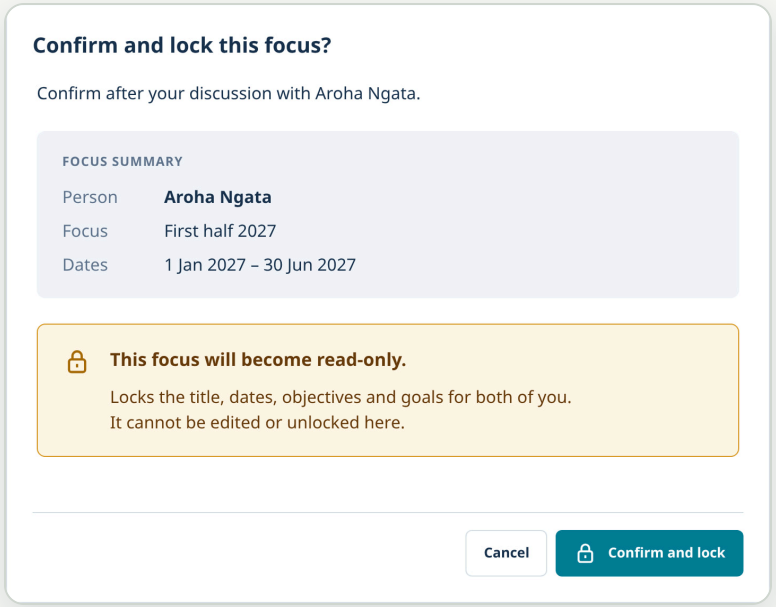

The confirmation dialog identifies whose focus will lock and reminds you who to discuss it with.

TRY IT

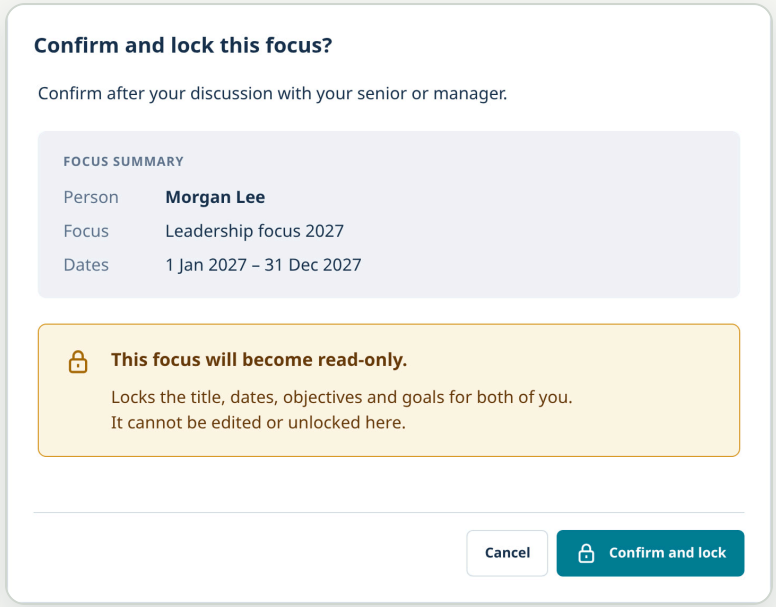

1. Open a member's draft from Department.
2. Choose **Confirm and lock**, then **Cancel**.
3. Repeat with your own draft in Position focuses.

CHECK

- [ ] Another member's dialog names that member.
- [ ] Your own says **your senior or manager**.
- [ ] The summary still names the focus owner.
- [ ] Cancel leaves the focus editable.

5

Running a department

Career leads manage who is in their department, set its mission and strategic initiatives, and read members' focuses.

Career lead

People and their focuses

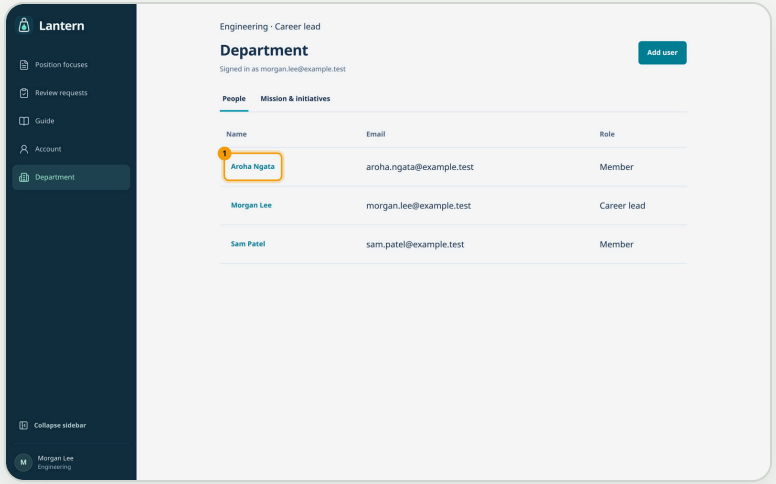

Department → People lists current members in Name, Email and Role columns. Choosing a person shows their focuses, read-only.

TRY IT

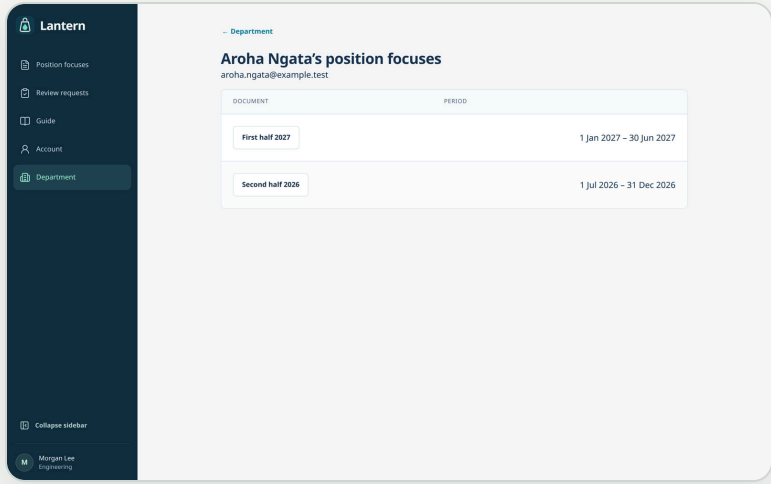

1. Open **Department**.
2. Choose a member's 1 name.
3. Open one of their focuses.

CHECK

- [ ] Only current members of your department are listed.
- [ ] A lead from another department cannot open these focuses, even by URL.
- [ ] Members do not see the Department page.

People · Desktop · 1440 × 900

A member's focuses · Desktop · 1440 × 900

Career lead

Add a registered user

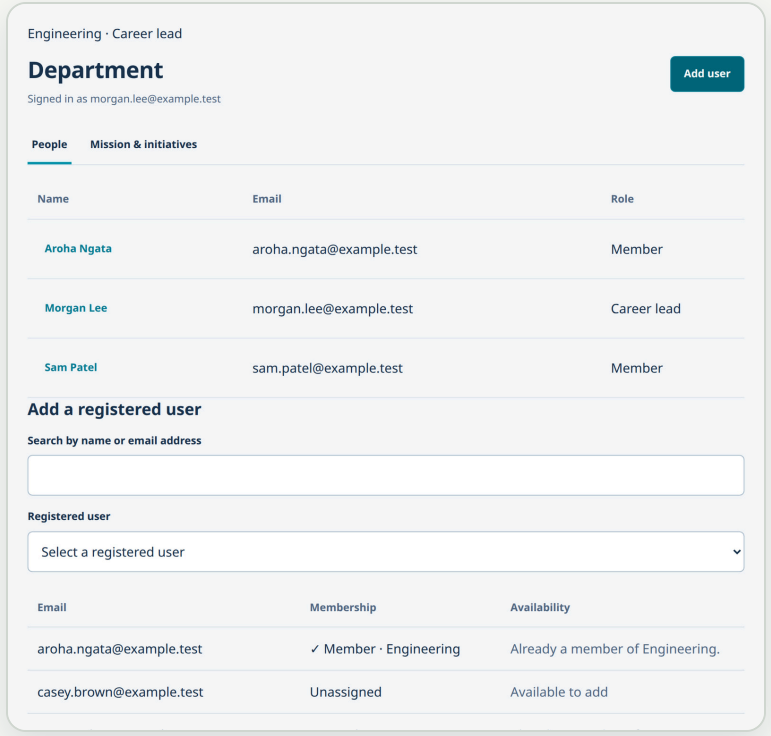

People sign in first; the career lead then adds them from registered users, listed by email, membership and availability. Roles cannot be chosen here.

TRY IT

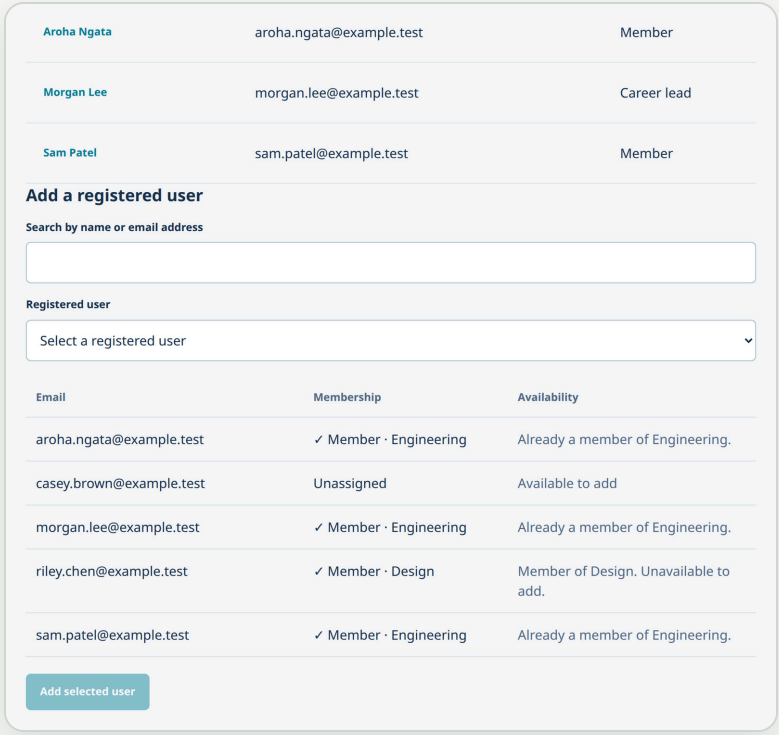

1. Ask the new person to sign in once.
2. Choose **Add user** and find them.
3. Add them to the department.

CHECK

- [ ] The person appears under People and can open Position focuses.
- [ ] People in another department cannot be added.
- [ ] Former members cannot currently rejoin.

Add user · Desktop · 1440 × 900 · scroll 1 of 2

Desktop · 1440 × 900 · scroll 2 of 2

Career lead

Mission and strategic initiatives

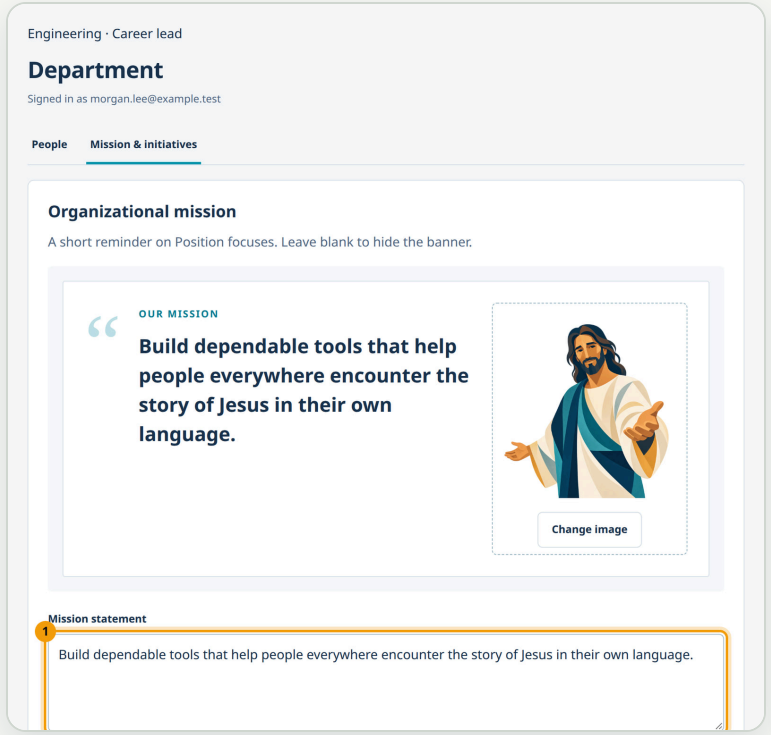

The mission appears on every member's home screen. Initiatives are what members link objectives to. Changes apply only after **Save changes**.

TRY IT

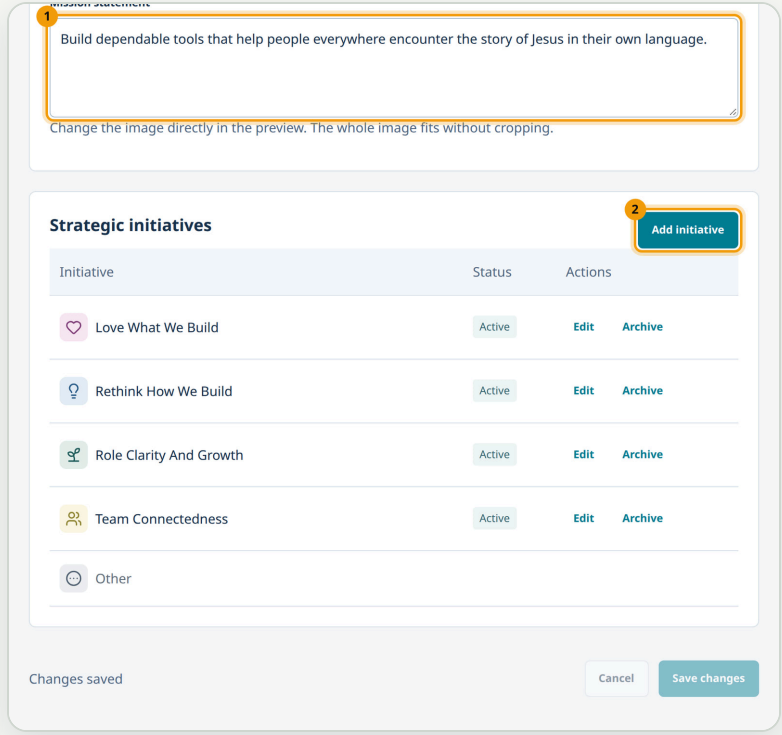

1. Open **Department → Mission & initiatives**.
2. Edit the 1 mission and watch the preview.
3. Add, edit, archive or restore an 2 initiative, then save.

CHECK

- [ ] A blank mission hides the banner for members.
- [ ] Archived initiatives disappear from new choices; saved objectives keep them.
- [ ] Saving after someone else saved shows a conflict instead of overwriting.

Mission & initiatives · Desktop · 1440 × 900 · scroll 1 of 2

Desktop · 1440 × 900 · scroll 2 of 2

Career lead

Edit an initiative

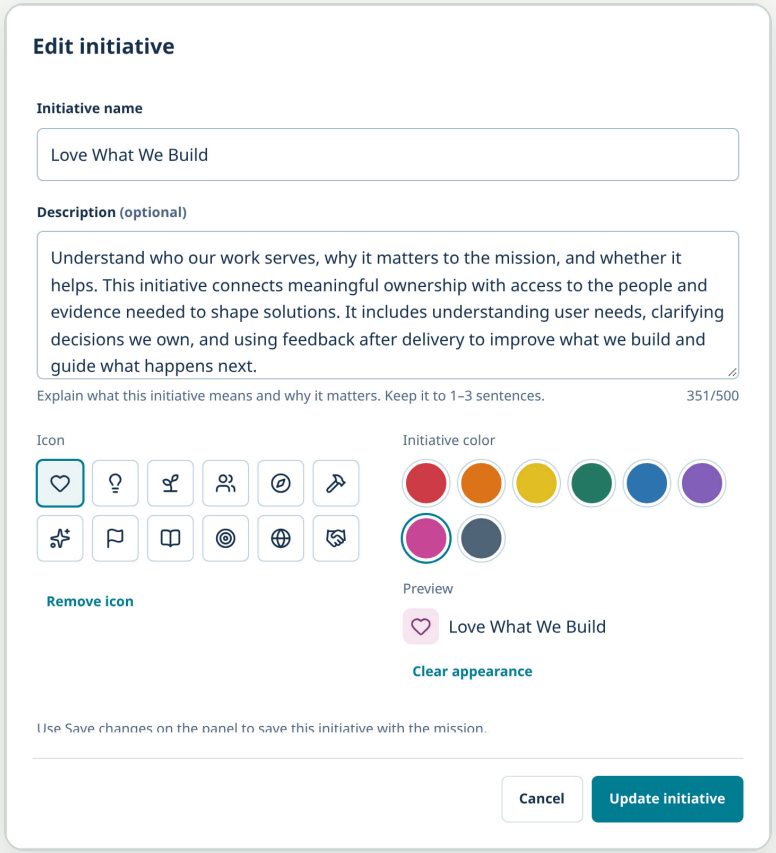

Each initiative has a name, an optional description of up to 500 characters, and an icon and color from a preset palette.

TRY IT

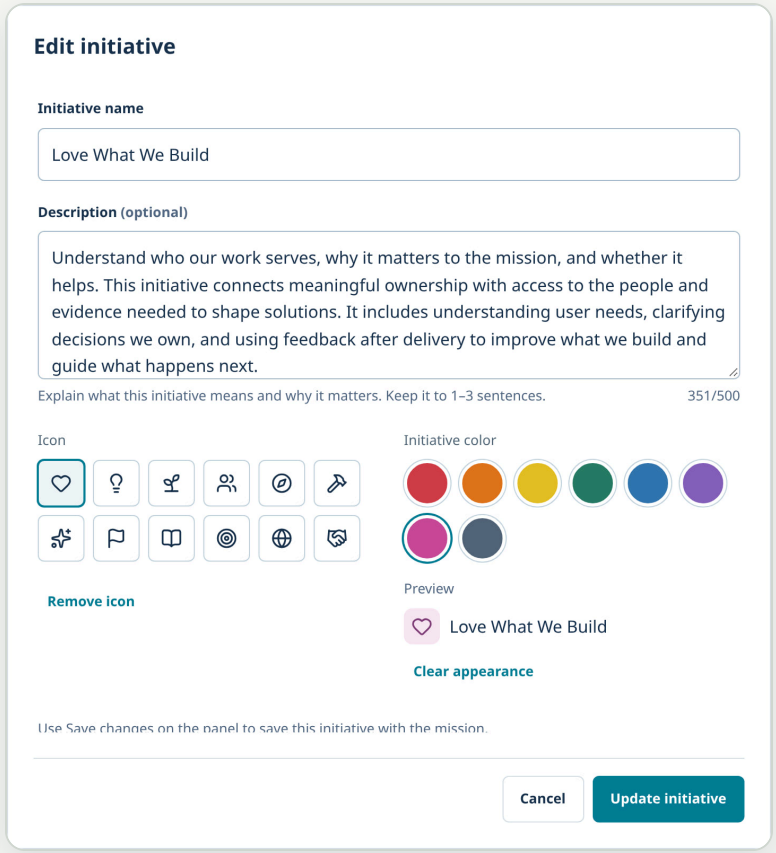

1. Choose **Edit** on an initiative.
2. Change the description, icon or color.
3. Close the dialog, then **Save changes**.

CHECK

- [ ] The Guide shows the new description.
- [ ] Badges on new objectives use the new icon and color.
- [ ] Confirmed focuses keep the names and appearance they were saved with.

Edit initiative · Desktop · 1440 × 900 · scroll 1 of 2

Desktop · 1440 × 900 · scroll 2 of 2

Career lead

Change the mission image

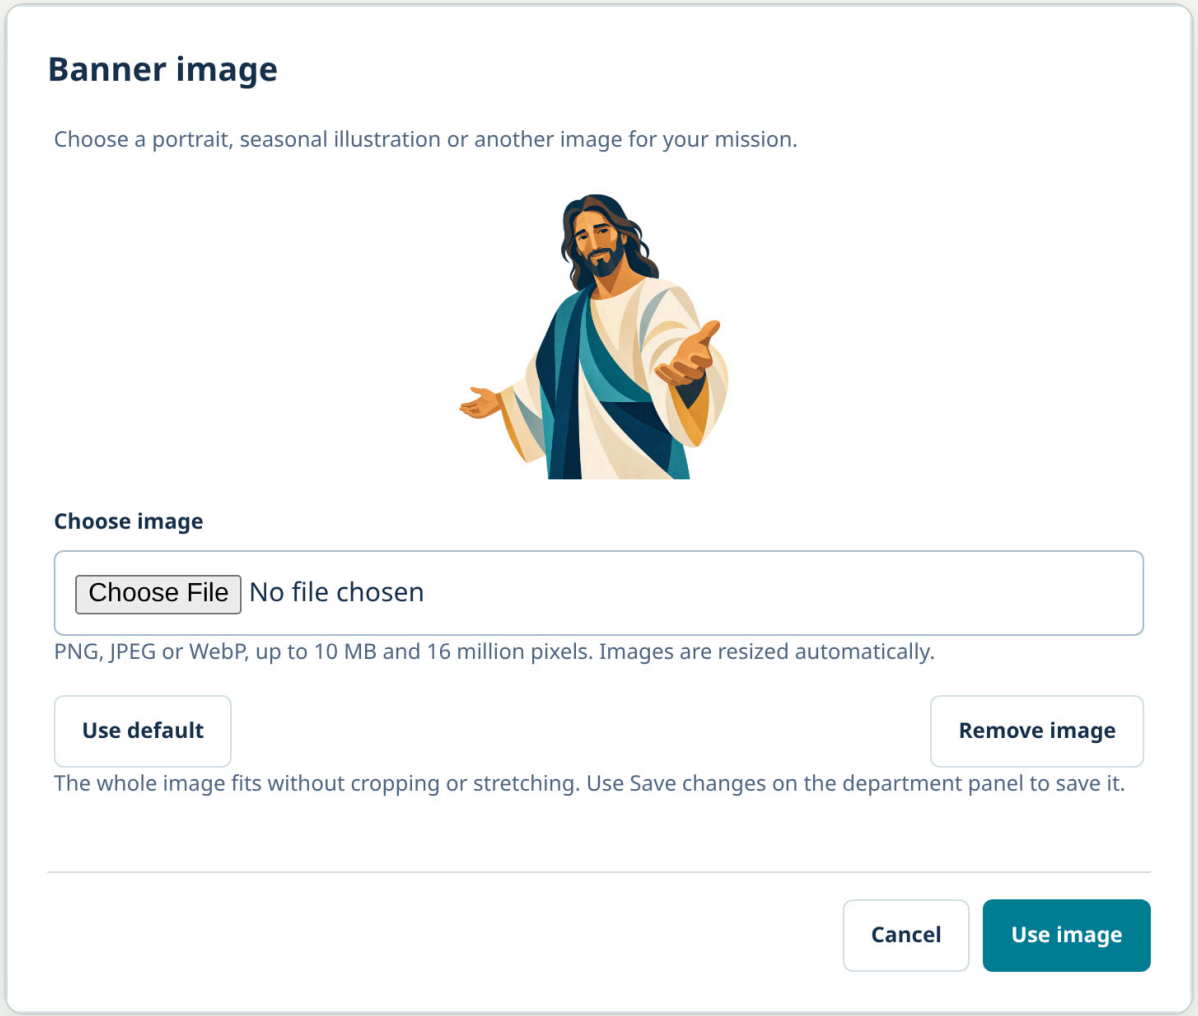

The mission card can show the default illustration, an uploaded PNG, JPEG or WebP, or no image.

TRY IT

1. Choose **Change image** on the preview.
2. Upload an image under 10 MB, restore the default, or remove it.
3. Choose **Save changes**.

CHECK

- [ ] The whole image shows, without cropping or stretching.
- [ ] Cancel discards a pending image.
- [ ] Very large or non-image files are refused with a message.

Change image · Desktop · 1440 × 900

6

The Guide

The Guide explains the process and good writing, with examples and the department's strategic initiatives. It is optional reading for members.

Start here

Member · Career lead

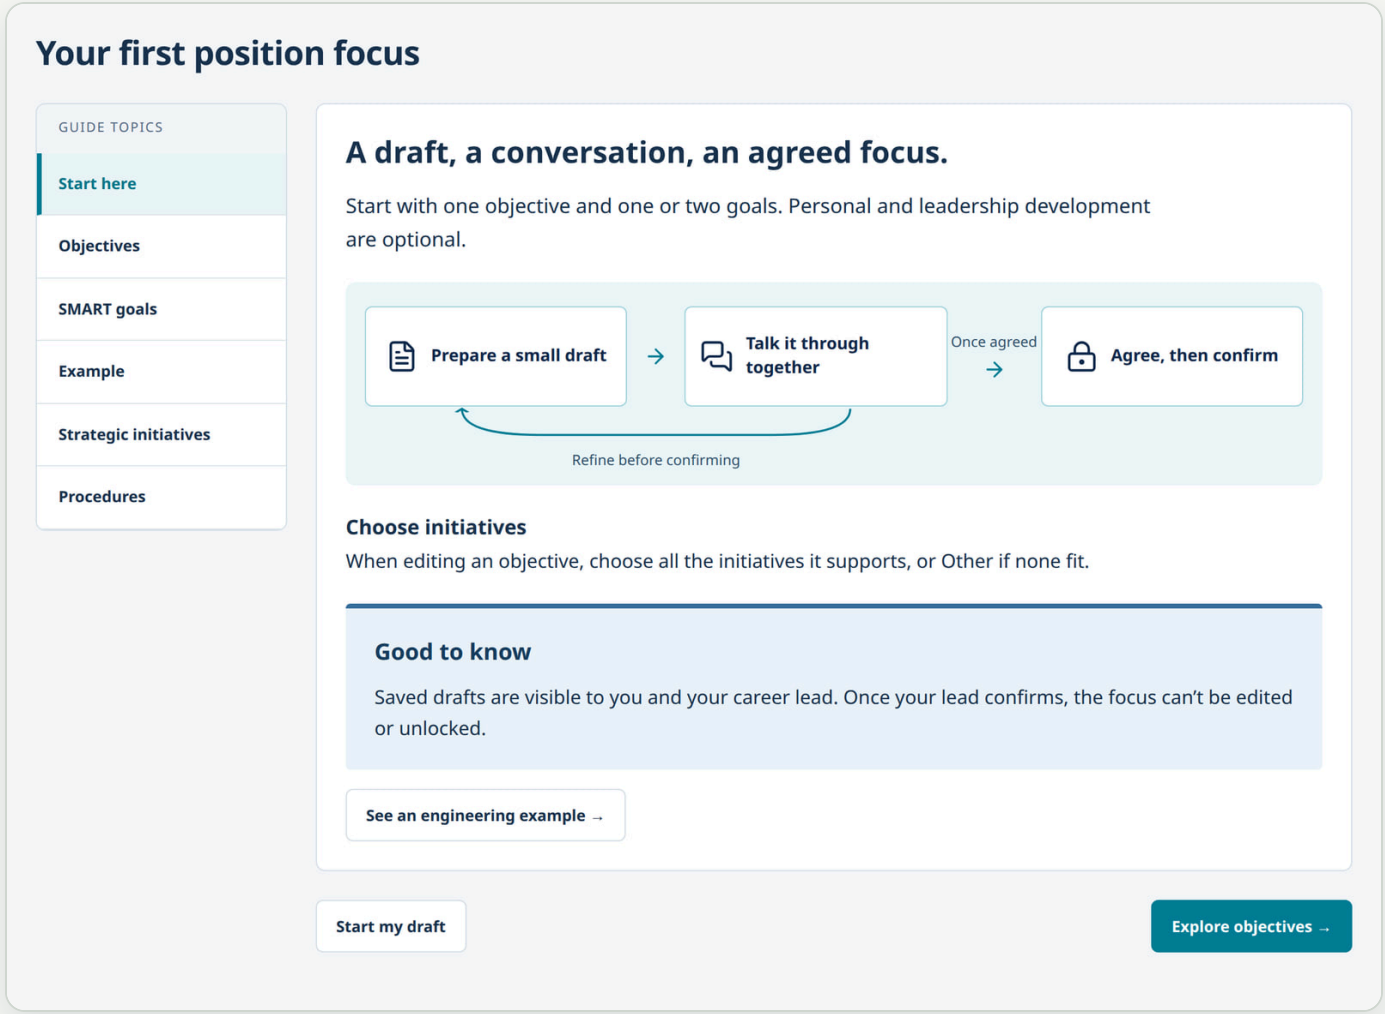

The first topic shows the draft → conversation → confirmation process and how to choose initiatives.

TRY IT

1. Open **Guide** in the sidebar.
2. Read **Start here**.
3. Move between topics with the topic buttons.

CHECK

- [ ] Each topic opens without reloading the page.
- [ ] The first-focus prompt on Position focuses opens this topic.
- [ ] Text is readable at 200% browser zoom.

Start here · Desktop · 1440 × 900

Member

Writing lessons and examples

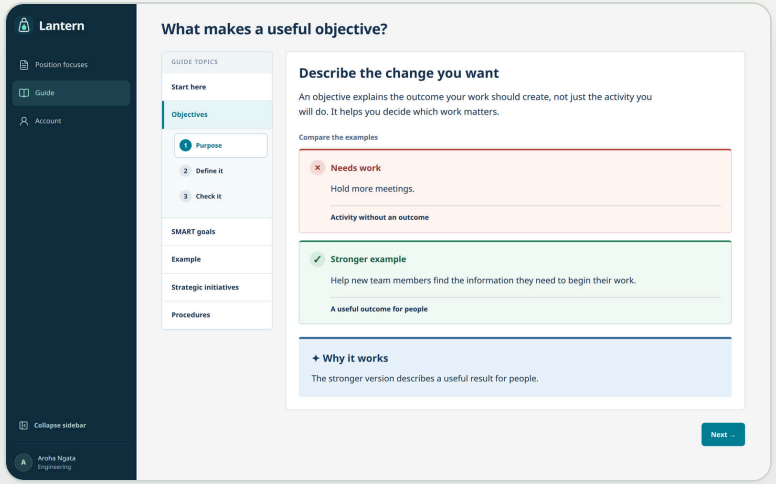

Objectives and SMART goals each have a lesson with common problems. Example offers a simple and an engineering focus.

TRY IT

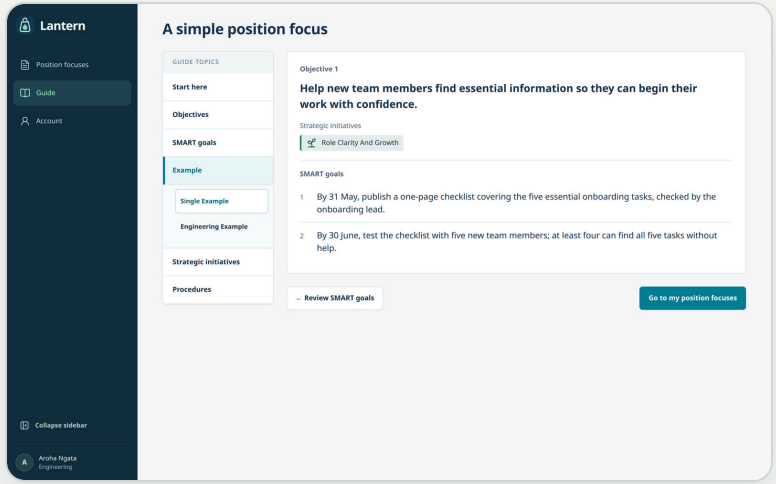

1. Open **Objectives**, then **SMART goals**.
2. Open **Example** and switch between the two examples.

CHECK

- [ ] Lesson steps move forward and back.
- [ ] Example badges use the team's initiative icons and colors.

Objectives lesson · Desktop · 1440 × 900

Example · Desktop · 1440 × 900

Member Career lead

Strategic initiatives and procedures

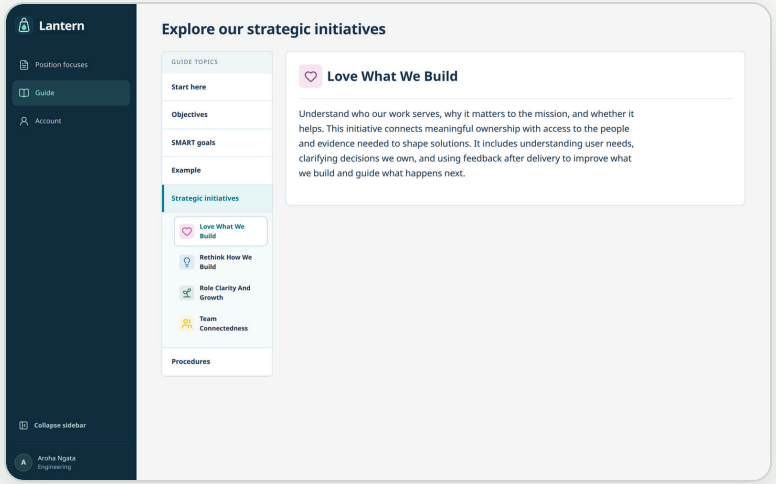

Strategic initiatives lists the department's active initiatives with their current descriptions. Procedures outlines the yearly rhythm (marked Proposed).

TRY IT

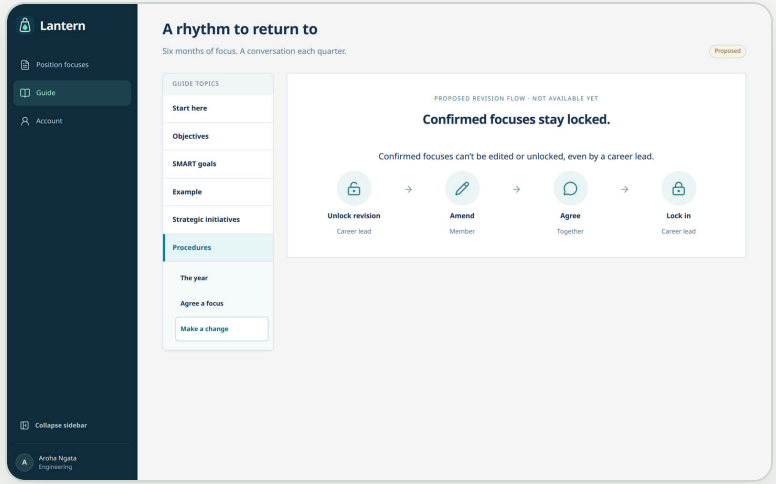

1. Open **Strategic initiatives** and choose an initiative.
2. Open **Procedures** and its three steps.

CHECK

- [ ] Archived initiatives are not listed.
- [ ] A missing description shows a clear empty state.
- [ ] Procedures screens show the Proposed label.
- [ ] Make a change says confirmed focuses cannot be edited or unlocked; revisions are unavailable.

Proposed revisions — not available yet · Desktop · 1440 × 900

7

Phones

Lantern supports phones from 320 px wide. Phone layouts put the member's current task first and show one objective at a time.

Member

Reading a focus on a phone

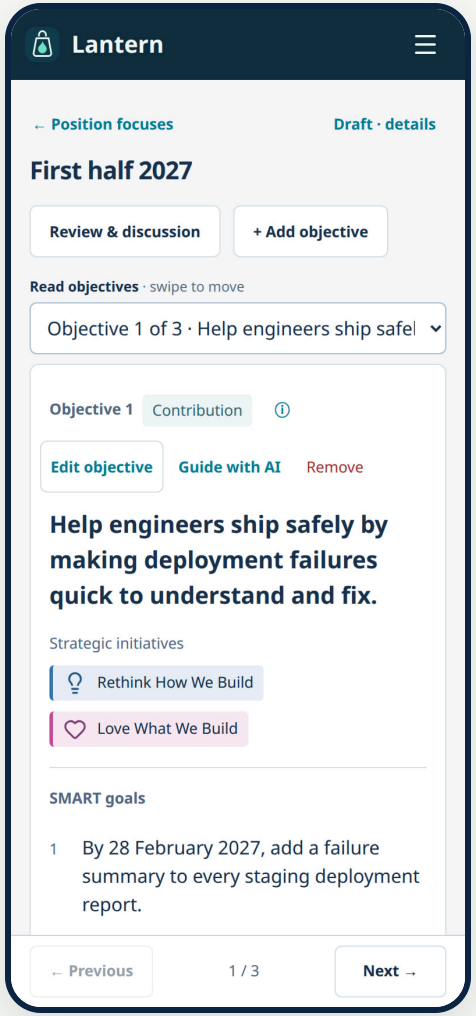

On a phone, objectives are read one at a time. Swipe, the objective picker, or **Previous / Next** move between them.

TRY IT

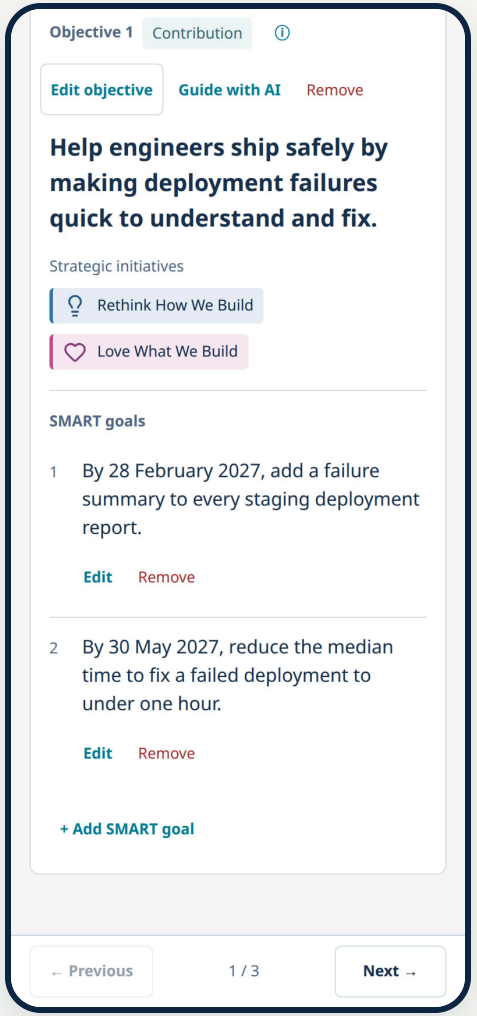

1. Open a focus with several objectives on a phone.
2. Swipe left and right, then use Previous / Next.
3. Rotate the phone.

CHECK

- [ ] The current objective number matches the picker.
- [ ] Buttons are never hidden behind the bottom bar.
- [ ] Rotating keeps your place and any unsaved input.

Phone · 390 × 844 · scroll 2 of 2

Writing on a phone

Member

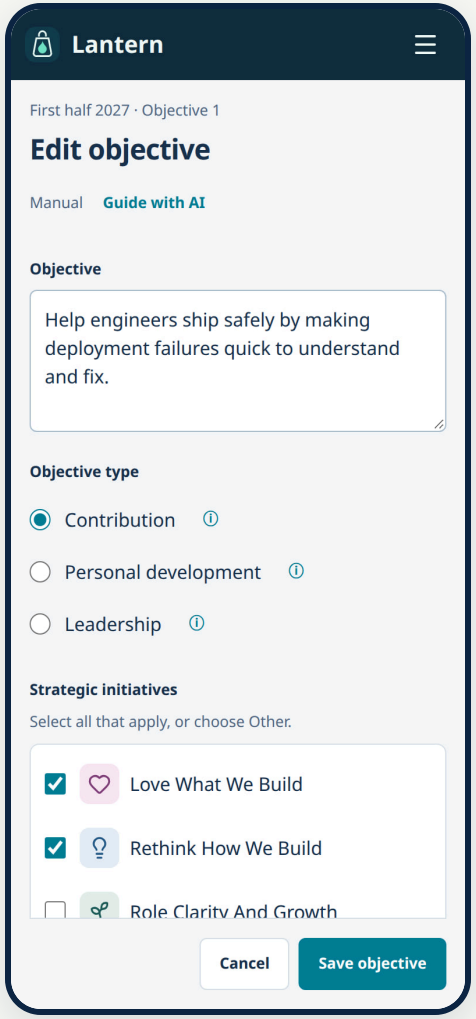

Objective writing scrolls as one page on a phone, with Save and Cancel always reachable.

TRY IT

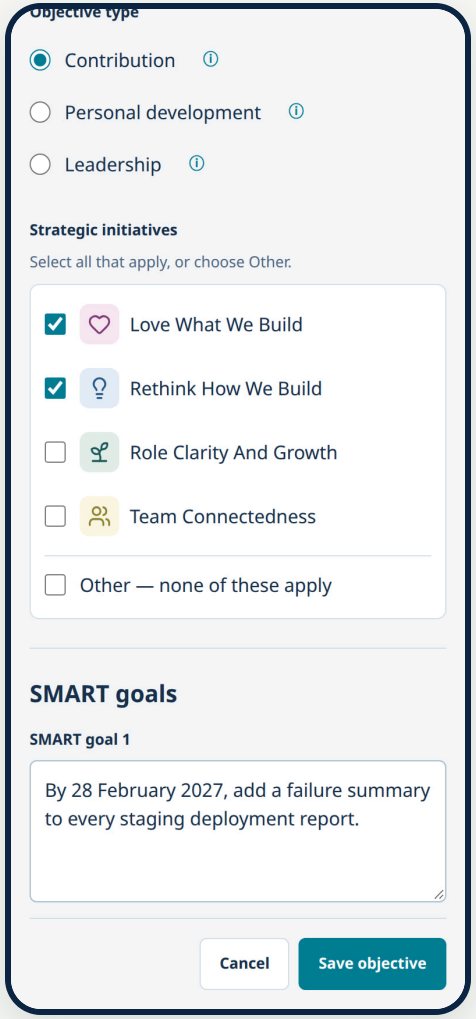

1. Choose **Edit objective** on a phone.
2. Type with the on-screen keyboard.
3. Save the objective.

CHECK

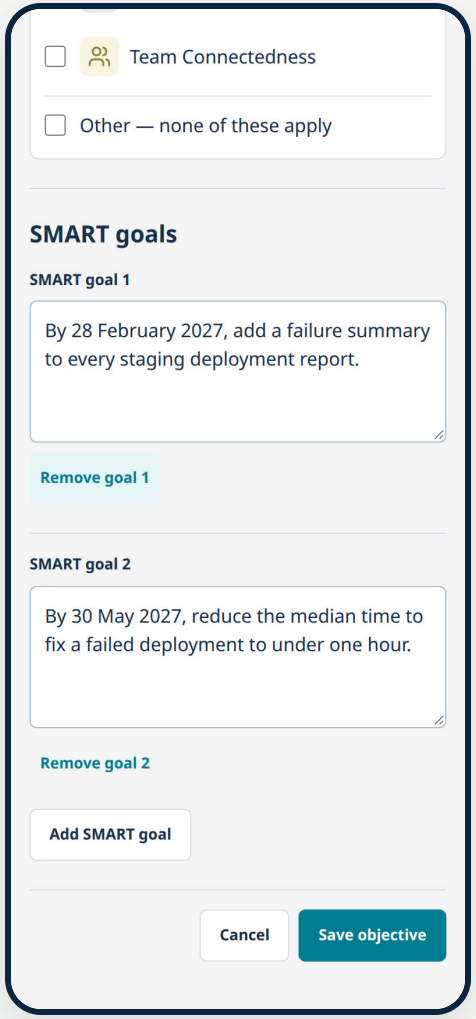

- [ ] The keyboard does not cover the field you are typing in.
- [ ] Save and Cancel stay reachable.
- [ ] Date pickers use the phone's native picker.

What to test by hand

Automated tests cover the main journeys with synthetic accounts. These areas need a person, a real account or a real device.

Checks the automated tests cannot make

Please spend most of your time here. Record each result, with your device and browser, in the QA results sheet.

Real Jesus Film sign-in

Approved and unapproved accounts, cancelling at Jesus Film Auth, signing in on a second device, signing out.

Joining a department

A brand-new account signs in, the career lead adds it, and Check access opens the workspace.

AI guidance with the real model

Useful suggestions, slow replies, cancelling, and the message when the AI cannot reply.

Real phones

iOS and Android keyboards, date pickers, rotation, browser bars and enlarged text.

Zoom and text size

Desktop browser zoom to 200% and enlarged system text on every main screen.

Two tabs, one focus

Edit the same focus in two tabs; the second save must be refused without losing your text.

Reporting a problem

Open an issue at github.com/JesusFilm/lantern/issues with enough detail for someone else to repeat it.

What you did

Numbered steps from a known screen, as in the Try it lists.

Expected and actual

Quote the Check item that failed, and what happened instead.

Who and where

Your role and test account, device, browser and screen size.

Manual reference

The manual edition and page number.

Evidence

A screenshot or short recording, with only test data visible.

Severity

Blocks team drafting, has a workaround, or cosmetic.
